**Comments for Public Posting:** Dear Honorable Councilmembers, On behalf of Legacy Youth Leadership, I am writing to express my support for the interactive kiosk project with IKE Smart City. The interactive kiosks have been an invaluable publicly accessible platform that showcase cultural and nonprofit organizations and enliven our city's streetscape. Importantly, IKE has allowed us to engage with residents and visitors in a more inclusive way, directly advancing our mission to building better leaders who will build a better world. Legacy knows that young people are not just the future, they are the present. The team at IKE and Orange Barrel Media has a longstanding track record of partnering with nonprofit and cultural organizations to advance impactful community initiatives. They have been generous supporters of Legacy Youth Leadership's Mental Health and Climate campaigns, both of which are vital in raising awareness, inspiring action, and encouraging open dialogue around issues that directly affect our communities. These campaigns not only foster greater understanding but also empower individuals to engage in solutions that promote emotional well-being and environmental responsibility. I am an enthusiastic supporter of IKE Smart City kiosks and endorse the team and product wholeheartedly. Best regards, Sam Maxwell
