Comments for Public Posting: I strongly OPPOSE releasing an RFP for interactive kiosks. These hundreds of giant digital advertising billboards will undermine STAP and reduce money for need shade and shelter. Why has Councilmember McOsker, former registered lobbyist for IKE/interactive kiosk program, introduced this? The kiosk program will take away from the advertising revenue for STAP—preventing the city from building more bus shelters. The kiosk program provides no support for the R.A.I.S.E. program initiatives, no discretionary community benefit funds to Council offices, and no shade and shelter for transit riders. Please do not release this harmful RFP.

Comments for Public Posting: I write in opposition to the City's release of the Request for Proposal (RFP) for the installation and maintenance of interactive digital advertising kiosks. The kiosk program will cannibalize the advertising revenue for STAP—preventing the city from building more bus shelters. The kiosk program provides no support for the R.A.I.S.E. program initiatives, no discretionary community benefit funds to Council offices, no shade and shelter for transit riders, and opens more doors to collection of personal data from unsuspecting users and/or passers-by.

Comments for Public Posting: Dear City Council, I oppose these kiosk ads and the motion to allow them on the streets of Los Angeles as they are a business forced on the citizens of this city to benefit the City Councilmember who has proposed them! What percentage of the revenue for these ads will the city benefit? The last thing this city needs is more commercial eyesores! Thank you. Steev (213) 924-9091

Comments for Public Posting: Please approve the settlement sought that would reject ugly and distracting digital kiosks from littering our streets. I support the efforts of Citizens for a Better Los Angeles and Coalition for a Beautiful Los Angeles settlement regarding the Sidewalk and Transit Amenities Program.
