Comments for Public Posting: I support this motion because I believe that residents of LA City Council Districts 6 and 7 deserve and need equitable access to green, healthy and safe spaces. We have seen throughout this pandemic how integral recreational spaces are for keeping community and our health; the motion serves as a pathway for greater social change in our community by strengthening neighborhood pride, ownership and responsibility for the health and wellbeing of our community members and our collective spaces. We hope that the City Council Members will support this motion to ensure a thriving, healthier, and more vibrant future for the our neighborhoods.
