Comments for Public Posting: Canine Legislation Position Statement BREEDING REGULATIONS AND RESTRICTIONS The Cavalier King Charles Spaniel Club, USA (CKCSC,USA) strongly supports and actively promotes a wide range of programs to educate the public about responsible purebred breeding practices and the responsibilities of dog ownership. We support reasonable and enforceable laws that protect the welfare and health of dogs as long as these do not restrict the rights of responsible breeders and owners The CKCSC, USA opposes the concept of breeding permits, breeding bans or mandatory spay/neuter of purebred dogs, specifically those based on the number of dogs owned or maintained. The CKCSC, USA has a code of ethics that promotes responsible dog owners and breeders and encourages them to know, understand and obey the laws that apply to them. Comments for Public Posting: Although I truly sympathize with the conditions of the shelter system, suspending the rights of responsible, law-abiding breeders and owners of intact dogs will not help shelter overcrowding. Very few well bred purebred dogs end up in shelters in comparison.
