Comments for Public Posting: Please consider enacting breeding restrictions and harsher penalties for irresponsible overbreeding, dumping and abusing of animals. The shelter system is at a critical juncture and there are too many errors, overcrowding, and not enough care being provided to these poor animals. Workers are not being provided the resources, training, or support they need to provide this type of care, and everyone involved is suffering to a great degree. Too many animals are not being given a fair chance, and too many staff and volunteers are seeing heartbreaking scenarios day in and day out. Everyone involved deserves better.

Comments for Public Posting: Consideration of intact dogs should not be included in this issue. Breeders need to abide by contractual agreements that help address solid placement of the litters they breed, in addition to willingness to have these same dogs returned for rehoming rather than they be placed in shelters.
