**Comments for Public Posting:** Define "regular exercise". Is "regular exercise" one day a week in the play yard? Or is "regular exercise" a daily activity? A clear and detailed definition needs to be shared with the public. Volunteers are the sole reason dogs are able to leave their kennels so addressing unfair terminations and discipline needs to be addressed first otherwise LAAS will have zero volunteers and the animals will be the ones to suffer. Will there be additional training so volunteers and staff can help dogs with behavioral issues?
