Comments for Public Posting: OK, censure. If the City Council is interested in restoring some of its credibility, it can try lying to the public less. Holding meetings online, closing City Hall, and BLAMING COVID because one or two Councilpersons tested positive...? Every person in the City with a job knows that if one or two people at a worksite test positive, or get Covid or the flu, those people go home to isolate or get better (see Federal, State, & local guidelines). YOU DON'T CLOSE DOWN THE ENTIRE WORKSITE. Unless there's some other reason that is not being communicated...
