To Whom it May Concern:

I am a concerned Los Angeles citizen who is calling for the resignation of Nury Martinez, Gil Cedillo, and Kevin de León..

After hearing the recording of racist and violent comments said by Martinez, a leave of absence is not sufficient enough, in the least. The rhetoric used within the walls of our government should not be this way. Our leaders must do better, which is why they must resign and more fit candidates should take their place. They work for the people and they have not represented the people of this city.

It is clear that conversations and speech like this have gone on behind closed doors for a long time - it was just recorded and leaked this time. So I would love to see my local officials demand immediate and necessary change, starting with their resignations.

With the elections coming up next month, I am wanting what is best for our city of Los Angeles, and this type of behavior and language should not be tolerated.

Thank you for your time,
Sterling Sulieman
Los Angeles
