Comments for Public Posting: Dear Gil Cedillo, I hope you will vote for this ordinance to stop using plastic in LA. There are so many alternatives that are much safer for the environment. Did you know that every plastic toothbrush ever produced still exists in a landfill somewhere? And I mean all over the world! This is because plastic takes thousands of years to decompose. Plastic is very harmful and is severely polluting the oceans. If you eat some fish from the ocean, you are probably ingesting plastic. It's time to stop using unnecessary plastics. Please support the decision to stop using plastics in LA.
