Comments for Public Posting: Please house the people living along Jefferson Blvd along the Ballona marsh. It is so sad to see the irreparable damage that has already been done to the area.

Comments for Public Posting: I am opposed to this motion. Please vote NO. We certainly need to develop a solution for the environmental issues of RV parking near the Bellona Wetlands, but it is best to leave the solution to our new CD11 representative, Traci Park. I am concerned about the spending of over \$2M of city funds on a no bid contract with no defined plan. Please vote no.

Comments for Public Posting: Please approve items 86. The vehicle dwellers & encampments on Jefferson Blvd are destroying the Ballona Wetlands & Marsh. They are defecating, urinating, dumping septic tanks, disposing of hypodermic needles in these environmentally sensitive habitats. Stolen vehicles, bike chop shops and a meth lab exist here. The dwellers have assaulted residents. Others have been shot at. Per LAPD Report (5/9/22) ,the dwellers have caused a 266% increase in crime! Of the 49 most dangerous hot spots in the City, the Ballona Wetlands & Marsh are the ONLY "environmentally sensitive habitats". The dwellers were responsible for a 5 acre fire last year. There have been several more in the past month. Santa Anas will blow a wild fire onto the adjoining Gas Company and ignite their gas reservoir causing a major explosion. Thousands of residents would be affected and possibly killed. Endangered species inhabit this area. It is vital that these areas are preserved. LA is park poor. There is very little urban green space available in our city. The Wetlands/Marsh provide a space for people to recreate. Ancient burial grounds of the Gabrielino Kizh Nation Native American Indians' are being desecrated. This group is being discriminated against. It is imperative that these areas are preserved. Please return the Ballona Wetlands/Marsh to safe public use. We ask that you make this area a priority and approve item 86.

Comments for Public Posting: The RV parking on Jefferson Road is out of control and creating dangerous situations. There have been fires and sanitation issues. It is imperative and urgent to find a solution for this - for the residents of the RVs and in the nearby neighborhoods.

Comments for Public Posting: This is situation that has gone on for far too long. It is a dangerous and unsafe area and causes damage to our wetlands, It is tragic that we allow people to live in filth and unsanitary conditions. It is a blight on our community and says to the community “we don’t care let them suffer”. Left as it has been it continues to grow and grow and get more dangerous and unhealthy. We finally cleaned up Venice Beach and Westchester Park please let’s do the same here

Comments for Public Posting: As a resident of Playa Vista, I urge you to support passage of this motion. For several years, this RV encampment has grown adjacent to the Ballona Freshwater Marsh (FWM); the residents of the encampment have damaged the wetlands habitat and are impacting the native wildlife. Birders and nature lovers from all over Los Angeles used to visit the FWM to enjoy its beauty and abundance of wildlife. Senior citizens would walk the public trails to exercise, get some fresh air, and enjoy the company of their friends and family. Before the encampments took over, busloads of students from under-resourced areas where green space is rare would visit to learn about nature and enjoy this natural habitat. Yet this encampment has prohibited public access and the area is no longer safe. These encampments cannot be allowed to flourish as residents of the encampments destroy the FWM – it's not humane to those living there, wildlife is being destroyed, and the residents of Los Angeles are being deprived of a valuable resource. I urge you to support passage of this motion.

Comments for Public Posting: We don't need to relocate RVs. We need to remove RVs from the streets, parking, lots and vacant lots. Having RVs in the area just increases, drug use, prostitution, violence, and public health issues. It's a danger to public safety, especially to children that live in play in the neighborhoods. We need to move forward as a society and start cleaning up the mess that was created from 2020 forward.

Comments for Public Posting: Stop this immediately. This will destroy our beloved Ballona Wetlands & our beautiful beaches. This is a last ditch effort by our councilman who would have been recalled if the recall was organized better. He didn't run again because he knew we would NOT voted for him. Please do not do this to our our community. Mayor Bass will implement a state of emergency soon. Do the right thing.

Comments for Public Posting: No bid contracts are always bad. They are always fiscally irresponsible, because there is no alternative, which allows the process to be corrupt. There should be no fewer than 3 bids for every contract. That allows creative and unique solutions to be developed.

Comments for Public Posting: Our family objects to the spending of \$2.3 million of our tax money on a no bid, no plan action to move homeless from Jefferson Blvd. to the Westchester/Playa area. Let newly elected councilwoman Traci Park handle this.

Comments for Public Posting: I object to lame duck Bonin trying to squeeze out \$2.3 million to relocate people to Westchester with apparently no plan on where to house them. I don't know him but have seen many negative comments posted on his behavior & policies & have serious doubts regarding his sincerity towards his constituents. Actions like this are why the public have such negative opinions of politicians. It seems as though the majority are glad to see him go except the intended recipients of the \$2.3 of taxpayers dollars. Do one last honest act before you leave Bonin & at least you can depart with your head held up & not in the corruption gutter. Good luck in your next endeavor, hopefully NOT in politics.
