Comments for Public Posting: This is an attempt to block affordable housing during a housing crisis! It is reprehensible and contributes to the housing crisis!

Council File No: 22-1328

Comments for Public Posting: Councilmember Park is opposed to any productive solutions to addressing the housing crisis in our district and is utterly contemptuous as a public official. Blocking the Disability Community Resource Center from developing the property at 12901 Venice Blvd is a cruel and counterproductive act when there is so little affordable housing in our district. Acting as though a private developer can better utilize the property than the DCRC who has operated the property since 1982 is absurd. Councilmember Park's only real motivation is punishing the poor and unhoused, driving them from our district by any means available to her. She is a segregationist and white supremacist, it is no surprise she would behave like one, but the rest of the council should reject her obstinate attempt to keep the westside from doing its part to address the housing crisis that the entire city has a responsibility to deal with together.
