

REPORT FROM

OFFICE OF THE CITY ADMINISTRATIVE OFFICER

Date: November 7, 2025

CAO File No. 0220-06083-0045
Council File No. 22-1545
Council District: All Districts

To: The City Council

From: Matthew W. Szabo, City Administrative Officer

Reference: Homelessness Emergency Account

Subject: **HOMELESSNESS EMERGENCY ACCOUNT - GENERAL CITY
PURPOSES FUND THIRTY-FIRST STATUS REPORT (C.F 22-1545) AS
OF AUGUST 31, 2025**

SUMMARY

On January 18, 2023, the City Council and Mayor approved the motion (C.F. 23-0033) to establish the Homelessness Emergency Account (HEA) to address the City's homelessness crisis. For FY 2025-26, a total budget of \$72.3 million was approved with \$36.1 million allocated in the Unappropriated Balance. Regular reporting will continue while the Declaration of Local Emergency is active. This is the thirty-first status report.

RECOMMENDATION

Note and file.

BACKGROUND

On December 21, 2022, the Mayor issued Executive Directive No. 2, launching the Inside Safe Initiative with the aim of rapidly moving people living in encampments indoors and connecting them with services and housing.

On January 18, 2023, the City Council and Mayor approved the motion (C.F. 23-0033) to establish the Homelessness Emergency Account (HEA) to address the City's homelessness crisis and a budget of \$50 million, of which \$23.5 million originated from the COVID-19 Emergency Response account and \$26.5 million from the Additional Homeless Services - General City Purposes account. The City Council and Mayor also authorized the City Administrative Officer to spend the funds as directed by the Mayor, and to provide reports to Council on the expenses incurred and purposes for which the funds were used. For FY 2023-24, the Council and Mayor approved a budget of \$250 million in funding to continue implementation of the Inside Safe Initiative, of which \$65.7

million was appropriated into the HEA and the remainder appropriated into the newly created Inside Safe Reserve Fund account. Transfers from the Inside Safe Reserve into the HEA were contingent upon Council and Mayoral approval. During the annual budget process for FY 2024-25, the Council and Mayor approved \$80 million in funding to the Inside Safe Reserve Fund account and the reappropriation of the unencumbered balance remaining in the HEA and Inside Safe Reserve. The City Council and Mayor also authorized the City Administrative Officer to spend the funds as directed by the Mayor, pursuant to monthly expenditure reports and funding allocations to be approved by Council. This new report format was to be inclusive of the requested data from the adopted budget instructions. The FY 2024-25 controlling fund language replaced the language in the 2023-24 Adopted Budget and its related amendment.

During the annual budget process for FY 2025-26, the Council and Mayor approved a budget of \$72.3 million, which consists of an appropriation of \$36.17 million in the HEA and \$36.17 million in the unappropriated balance, and the reappropriation of unencumbered balances remaining in the HEA and Inside Safe Reserve Fund account to continue implementation of the Inside Safe Initiative. The Homelessness Emergency Account is partially funded by revenues from the County-Alliance MOU reimbursements and the State Encampment Resolution Grant.

The total expected revenue from these sources is expected to be \$57.6 million, comprising an anticipated \$35.1 million from the County-Alliance MOU, and \$22.5 million from the State Encampment Resolution Grant. Under the County-Alliance MOU, the County will reimburse the City for eligible services provided by the City's interim housing interventions, as outlined in the Alliance Settlement. The State Encampment Resolution Grant was awarded for the 3.3 mile stretch of the I-10 Freeway to serve approximately 793 people experiencing homelessness (C.F. 25-0216). Of the total \$72.3M budget, \$14.6 million is attributable to a new appropriation from the General Fund.

For FY 2025-26, regular reporting on the Homelessness Emergency Account will continue per the Declaration of the Local Emergency.

DISCUSSION

From July 1, 2025, through August 31, 2025, total expenditures from the FY 2025-26 Homelessness Emergency Account (HEA) were \$8,496,626. This amount includes \$794,991 for FY 2025-26 Operating Expenses. An additional \$7,687,355 was expended for FY 2024-25 costs, which included \$4,811,873 for Service Providers, \$2,212,961 for motel invoices, \$18,409 for motel facility expenses, and \$644,112 for permanent stay (TLS) costs. The remaining \$14,280 was expended for FY 2023-24 motel facility expenses.

As a part of the FY 2025-26 budget, an up to amount of \$99.5 million was projected to rollover over from the prior fiscal year. This office is now estimating a rollover of \$57.8 million into the current year. Of the \$57.8 million, it is estimated that \$11.4 million (including \$5.4 million in FY2024-25 LAHSA Service Provider costs) will be needed to pay previous year expenditures, while the remaining \$46.4 million will be re-programmed for this fiscal year. Further details will be provided when the rollover is finalized by the Controller's Office.

Attachment 1 summarizes the funding authority for FY 2025-26 and provides a detailed look into current year expenditures. Attachment 2 summarizes expenditures incurred in prior fiscal years as well as providing an overview of the current year budget.

As of August 31, 2025, the available balance in the Homelessness Emergency Account was \$27,683,033.

Inside Safe Motel Interim Housing Portfolio

As part of the Inside Safe operations, participants are connected to housing, typically in the form of City-contracted motel rooms. The two types of contractual motel leasing agreements are booking and occupancy. A booking agreement confirms a fixed nightly rate, but motel rooms used may fluctuate based on the number of participants at a location and room availability. An occupancy agreement includes a fixed nightly rate as well as a guaranteed number of rooms, regardless if they are filled or not.

Attachment 4 provides details on occupancy agreements that have been approved by Council to extend beyond June 2027, along with leasing and service costs associated with them. Calculations are based on estimated execution dates and may be updated in future reports as contracts are finalized.

Table A1 below summarizes Inside Safe Motel Contracts by contract and extension type. The current Inside Safe Motel Interim Housing Portfolio counts towards the Alliance Settlement Agreement obligations. If any interventions are discontinued prior to June 2027, additional interventions counting toward the Alliance Settlement Agreement will need to be identified to replace them. For additional information, refer to C.F. 23-1022 and subsequent council files.

Table A1: Inside Safe Motel Contracts by Type ¹		
Contract Type	Motel Count	Room Count
Occupancy Agreements (Through June 2027)	13 ²	467
Occupancy Agreement (Other)	5	216
Booking Agreements	24	535
Totals	42	1,218

¹ The information in this table reflects previous contract amendments as approved by Council and Mayor through August 31, 2025.

² Of the 13 contracts, 11 have been executed to extend past June 2027.

For FY 2025-26, the motel interim housing portfolio for Inside Safe is estimated to cost \$55 million. The average nightly rate since the beginning of the program through August 31, 2025, is \$117.29. Nightly rates range from \$87 to \$171 per night, inclusive of Transient Occupancy Tax (TOT) and applicable Los Angeles Tourism Marketing District Tax (LATMD), with two service provider 2-bedroom office rooms costing \$251 per night.

As of August 31, 2025, motel leasing invoices received to date include 3,756 invoices from 58 out of 59 individual hotels, totaling 877,365 hotel room nights since the beginning of the program. One of the motels with an executed booking agreement contract was never occupied. The current number of interim housing hotel rooms available based on invoices received for booking agreements and occupancy agreements through August 31, 2025, is 1,218 rooms, which is inclusive of rooms for service providers' offices and security. It does not account for two or more occupants sharing a room. A total of 16 hotels have been demobilized and are no longer in use since the beginning of the program. Per LAHSA, there are currently 1,211 people residing in hotels (Attachment 3).

Operating / Facility Expenses

Facility expenses include costs for property improvements, repairs/damages, valuation reports, and insurance. Incurred expenses since the beginning of the program total \$3,403,861. To date, the City has received a total of 403 damage claims for hotels of which a total of five have been denied and 101 have been paid. If any of the reviewed claims were expected to be fraudulent, they were forwarded to the City Attorney. Damage claims from motels previously followed a process similar to the one established for Project Roomkey: the owner (or representative) submits a form that includes pertinent information such as the date of the incident, what was damaged, and requires the on-site service provider's signature. A quote for the repair and pictures are also required.

The Mayor's Office, with assistance from CAO Risk Management, executed a contract

with a Third Party Administrator on March 25, 2025. The remaining claims are in the process of being assessed by the contractor while a competitive process can be completed. The contractor will ensure timely processing and has the expertise to ensure that the City pays costs that are fairly and accurately assessed per its contractual obligations for Inside Safe participating properties. For FY 2025-26, damage claims related to the Inside Safe motel interim housing portfolio are estimated to total \$2.75 million, which is based on approximately 5 percent of the portfolio leasing costs.

LAHSA Service Provider Contracts

The Inside Safe initiative relies upon the work of the Los Angeles Homeless Services Authority (LAHSA) and service providers in conducting assessments, providing services which include case management services, housing navigation, street engagement, food programming, and resident monitors in nightly motels and the Mayfair. Budgets for these services are based on a daily bed rate of up to \$110 per person. This was adopted when a procurement for Inside Safe was released in the fall of 2023. Through this process, 14 qualified service providers were identified to perform services as outlined in the Scope of Required Services (SRS).

The Inside Safe Interim Housing Portfolio also includes congregate beds at two sites located within Council District 14. One site is a 58-bed program at a Weingart facility, which is operating through September 2025. The second is a sprung structure shelter at 545 S. San Pedro Street with 53 beds, which opened in April 2025 and whose contract extends through June 2026.

For Fiscal Year 2025-26, the estimated costs for all service providers (including the Mayfair) is \$76 million. From July 1, 2025, through August 31, 2025, a total of \$4,811,873 was expended from the HEA for FY 2024-25 LAHSA Service Provider costs.

LAHSA Permanent Stay

Beginning in Fiscal Year 2023-24, LAHSA was contracted to administer two programs as part of the Inside Safe initiative's goal of creating pathways to permanent housing. These include time-limited subsidies (TLS), which provide short-term rental assistance, and housing navigation, a service focused on helping participants find and secure permanent housing. These initiatives are separate from the interim housing services and are specifically designed to help participants secure long-term supportive housing. Per the Mayor's Office, an allocation for permanent stay costs (i.e. TLS or housing navigation) is not included in the FY 2025-26 Inside Safe budget.

From July 1, 2025, through August 31, 2025, a total of \$644,112 was expended from the HEA for FY 2024-25 LAHSA TLS costs.

LA Grand & Mayfair Interim Housing

The LA Grand Hotel provided interim housing under a lease agreement from February 1, 2023, until final demobilization on July 18, 2024. LA Grand participants transitioned to the Mayfair starting in May 2024 and culminating in June 2024. Information on the LA Grand's leasing and demobilization is included in the Twenty-Ninth HEA report (C.F. 22-1545-S32).

On August 18, 2023, Council approved the acquisition and rehabilitation of the Mayfair Hotel for use as interim housing for Inside Safe. The site, which opened and started accepting clients on May 1, 2024, has 294 rooms with a three-level 183 parking space garage and is located in Council District 1. It was previously used as a part of Project RoomKey (PRK). The Housing Authority of the City of Los Angeles (HACLA) manages operations under an Asset Management agreement, while LAHSA contracts with Weingart to provide services for Inside Safe Participants. According to Weingart, as of August 31, 2025, Mayfair was at approximately 83 percent occupancy with 244 rooms and 256 participants. Information on the acquisition and associated costs are included in the Twenty-First HEA Status Report (C.F. 22-1545-S24).

As outlined in a Municipal Facilities Committee Report (C.F. 23-0792-S2), the rehabilitation of the Mayfair Hotel is a multi-phase project. Phase 1, which included the renovation of 294 rooms and service areas, was completed prior to initial resident move-in. The project has now advanced to Phase 2, which will focus on major structural and systems upgrades, including seismic strengthening, elevator modernization, and façade and roof repairs, with an estimated completion time of 12 to 18 months.

While a new comprehensive project timeline is being developed, preliminary work on Phase 2 has commenced. The Bureau of Engineering (BOE) began the pre-design stage for seismic retrofitting in January 2025. Concurrently, HACLA has initiated the elevator modernization, for which funding will be requested via a Capital and Technology Improvement Expenditure Plan (CTIEP). HACLA is also proceeding with funded roofing repairs and is currently reviewing contractor bids. Further updates on the renovation progress will be provided in a future report. Distinct from these capital improvement costs, funding for routine day-to-day damages is allocated through the annual Operations and Maintenance fees in the HACLA budget. Updates on current year operating expenses will be provided in future reports.

Project HomeKey-3 Match

On June 30, 2023, the City Council and Mayor approved the CAO report relative to the recommendations related to the State of California Department of Housing and

Community Development HomeKey Program, Round 3 Report (C.F. 21-0112-S3), which authorized the City to obligate City match and funding for three housing sites to be used as interim housing. Within this report, it is previously noted that an up to amount of \$31.5 million of match funding would be used, subject to the approval of the Mayor's Office. A transfer of \$20.4 million was authorized to the Los Angeles Housing Department (LAHD), as approved by the Mayor's Office, for capital costs associated with the Cheviot Hills - Shelby project. This project is expected to provide 78 interim housing units. This funding is also leveraged for the Motel 6 - North Hills project, which is expected to provide 111 interim housing units. An up-to amount of \$11.09 million for Cheviot Hills - Shelby operating costs, which were earmarked against last year's HEA funding, is expected to be transferred at a later date to be determined by the Mayor's Office. The site is anticipated to open in March 2026. For FY 2025-26, \$846,924 in funding is budgeted for Shelby operational costs.

City Department Costs

LAPD provides essential support by ensuring the safety of City staff and program participants. The department's overtime costs for these operations are reimbursed from the Homelessness Emergency Account (HEA). As of this report, two invoices for the May-July 2025 service periods, totaling approximately \$11,000, are pending payment. There have been zero arrests during the initial phase of operations.

As a part of the FY 2025-26 budget discussions, LADOT costs for transportation relocation services were identified to be reimbursed by the HEA. Estimates are pending.

Fiscal administration of the Inside Safe program is managed by the Office of the City Administrative Officer (CAO). The CAO's duties include processing vendor invoices (see section: Inside Safe Motel/Hotel Invoicing and Contracting), monitoring the HEA's balance and commitments, tracking expenditures, and providing monthly financial reports. This work is supported by an estimated 6.5 full-time equivalent (FTE) positions, funded primarily by the Homeless Housing, Assistance and Prevention (HHAP) Grant with supplemental support from the General Fund.

RV Storage Lot

To support Inside Safe operations, the City is developing secure storage lots for recreational vehicles (RV's), which will function similarly to an Official Police Garage. The first facility, a Metro-owned lot in Council District 9, became fully operational on February 25, 2025. This site operates under a three-year agreement with Metro. The second year fee for site utilization is expected to remain level at \$150,000.

A second Metro-owned lot in Council District 6 was identified as the next site for RV

storage. Development was contingent upon the approval of a CEQA exemption prepared by BOE, which was approved by Council and Mayor on August 15, 2025 (C.F. 22-1545-S31). A total of \$764,991 has been transferred to BOE for construction costs.

Inside Safe - Program, Encampment Resolution, and Metrics

The Inside Safe Initiative emphasizes a “housing first” approach, transitioning people experiencing homelessness directly into beds provided by local motels or City owned properties. The program also begins with encampment resolutions as identified by Council Offices and assessed by the Mayor’s Office Field Intervention Team (FIT). The FIT team also provides community engagement through virtual town hall-style meetings, connects individuals with service providers, and after an operation, monitors the original location for repopulation and engages with Inside Safe participants.

The Los Angeles Homeless Services Authority (LAHSA) maintains a data module within the Homelessness Management Information System (HMIS) to track key metrics for Inside Safe. Attachment 3 includes summaries of Inside Safe outcomes and breakdowns by race and ethnicity prepared by LAHSA, as well as additional breakdowns of the participant status by Council Districts and other pertinent metrics. Since the beginning of the program, a total of 108 Inside Safe encampment operations have been completed. This report includes data from one new encampment operation and five response efforts that occurred in August 2025.

Per Attachment 3, LAHSA’s HMIS dashboard reports a total of 5,042 individuals voluntarily accepted to move into interim housing and were connected to services, of which 1,198 Inside Safe participants moved into permanent housing since the beginning of the program through August 31, 2025. This reflects an increase of 70 and 28, respectively, since the last report. This data includes all occupants residing at the Mayfair and operations that have been carried out to address repopulation of encampments. The current housing retention rate of the program is estimated to be 58 percent. These numbers may change as LAHSA continues to work on further reconciling service provider data with HMIS entries to resolve duplicate placements and other discrepancies as well as refining the Inside Safe data module.

Attachment 3 also includes a matrix that summarizes information associated with specific operations, including the number of operations, where they were located, the number of participants placed, and where participants exited to.

Joint City-County Inside Safe Reimbursements

The City and County of Los Angeles executed an agreement (Contract #AO-23-603) to reimburse the City's Inside Safe program for operations that serve residents from

encampments on County land. Initially established in June 2023, the current agreement is for reimbursement up to \$6,160,400 joint City-County Inside Safe operations. Reimbursements are deposited into the Inside Safe Reserve Fund. Unless renewed, the agreement is scheduled to terminate on January 9, 2026.

The City has submitted invoices to the County for a total reimbursement of \$3,005,084. To date, the City has received reimbursement for all invoices. A total of \$1,860,000 was appropriated to the Inside Safe Reserve Account for FY 2024-25. The remaining amount of \$1,145,084 is anticipated to be appropriated into the FY 2025-26 Inside Safe Reserve Account.

FISCAL IMPACT STATEMENT

Approval of the recommendations in this report will not have an immediate impact on the General Fund given that the recommendations use budgeted General Funds.

FINANCIAL POLICIES STATEMENT

The recommendations in this report comply with the City Financial Policies.

¹ Funding for the Inside Safe program's Homelessness Emergency Account and Unappropriated Balance is provided by 50% of the revenue from the County-Alliance Memorandum of Understanding (\$17,580,905) and the State Encampment Resolution Grant (\$11,250,000). The total expected revenue from these sources is \$57,661,810, comprising \$35,161,810 from the County-Alliance Memorandum of Understanding and \$22,500,000 from the State Encampment Resolution Grant. Of the budgeted amount, \$14,697,506 is attributable to an appropriation from the General City Purposes (GCP) account.

² Details of how the Encampment Resolution Fund is to be utilized are to be determined.

³ Subject to change based on line item allocations.

⁴ This is based off the contract authority authorized by City Council (C.F. 22-1545-S29).

Race & Ethnicity

Individuals included in report: Includes clients who were engaged on the day of the encampment resolution and in repopulations efforts. Inside Safe also includes clients who were living in other ad hoc encampments throughout the city since January 2023 and clients that were living in the LA Grand on Feb 1, 2023, when transition from a PRK site. It also include clients in the ERF LA Grand Program. The nonspecific encampment-based clients comprise 1151 individuals.

Housing Retention: The percentage is calculated by dividing the sum of people who are Currently Permanently Housed and Currently in Interim Housing by the number of people who entered Interim Housing. This figure excludes clients that have passed away as they did not voluntarily exit the programs.

Returned to Homelessness- Working with Providers: This includes clients who have left interim or permanent housing, but who are currently still engaging with outreach and housing programs.

Returned to Homelessness: Clients who have left the program and are not active in any other homeless services program in HMIS.

Data Quality:

The report includes only data that providers have entered into HMIS. Providers have up to 72 hours after an interaction with, or a change in status of, a client to make a record in HMIS. Due to the dynamic nature of the program and its participants, this process may take longer than 72 hours. There may also be additional activities that have yet to be captured in HMIS. LAHSA and service providers strive for complete, accurate, and timely data in HMIS. The Data Management team at LAHSA is actively collaborating with providers to resolve any data discrepancies.

Entered Interim Housing: Includes only clients who entered interim housing. This cohort is the basis for all reporting.

Percentage Permanently Housed: Calculated from all clients who entered interim housing who have not exited from program.

Duplicative Clients: As a note there have been 273 clients who have been involved in more than one resolution. They are deduplicated in the total count.

Demographics: Blanks in demographics (race, age, gender, etc.) are not calculated in these data sets (and the main topline), and people who self-report multiple races/ethnicities are double-counted in the race categories, but the grand totals are deduplicated numbers.

¹ These estimates include the initial contract term only. Some agreements include optional extension(s).

² The costs associated with these sites are estimates, pending actual execution dates. These costs may be updated in a future report.

³ The estimates for these sites have been updated per final contract terms, including term start dates.

⁴ Projections have been updated to reflect costs associated with long-term occupancy agreements. Reimbursement of service provider costs will be based on actuals and may be subject to change.
