Council File No: 22-1566

Comments for Public Posting: PLUM Committee and Councilmembers, I urge you to request the LA City Planning Department to report back to the Council with recommended next steps that can be taken to begin moving a Climate Action and Adaptation Plan (CAAP) forward. I also urge you to advocate for including ~\$1.8 million in the budget to fund staff so a CAAP can be created. Of the 10 most populous cities in California, Los Angeles is the only one that has not adopted a CAAP. The time for action is NOW. Los Angeles communities are already being harmed by climate change and the damage and costs to them and the City will continue to increase if no action is taken to plan for and mitigate those damages. Thank you
