Comments for Public Posting: I object to this item. All instances of enforcing sit, lie, sleep ordinances are a crime against humanity. In fact, the US Supreme Court ruled that it is cruel and unusual to jail people for not being able to lie down outside when they do not have a private space to lie down. I do not want to see any more 41.18 items on these agendas until LA has built adequate homeless and affordable housing units, rather than fining and jailing people for living in public when they have no other choice.
