A Neighborhood Council Community Impact Statement (CIS) has been successfully submitted to your Commission or City Council. We provided information below about CISs and attached a copy of the CIS.

We encourage you to reach out to the Community Impact Statement Filer to acknowledge receipt and if this Community Impact Statement will be scheduled at a future meeting. Neighborhood Council board members are volunteers and it would be helpful if they received confirmation that you received their CIS.

The CIS process was enabled by the to Los Angeles Administrative Code §Section 22.819. It provides that, "a Neighborhood Council may take a formal position on a matter by way of a Community Impact Statement (CIS) or written resolution." NCs representatives also testify before City Boards and Commissions on the item related to their CIS. If the Neighborhood Council chooses to do so, the Neighborhood Council representative must provide the Commission with a copy of the CIS or rResolution sufficiently in advance for review, possible inclusion on the agenda, and posting on the Commission's website. Any information you can provide related to your agenda setting schedule is helpful to share with the NC.

If the CIS or resolution pertains to a matter *listed on the Commission's agenda*, during the time the matter is heard, the designated Neighborhood Council representative should be given an opportunity to present the Neighborhood Council's formal position. We encourage becoming familiar with the City Council's rules on the subject. At the Chair's discretion, the Neighborhood Council representative may be asked to have a seat at the table (or equivalent for a virtual meeting) typically reserved for City staff and may provide the Neighborhood Council representative more time than allotted to members of the general public. They are also permitted up to five (5) minutes of time to address the legislative body. If the CIS or resolution pertains to a matter *not listed on the agenda*, the designated Neighborhood Council representative may speak during General Public Comments.

We share this information to assist you with the docketing neighborhood council items before your board/commission. If you have questions and/or concerns, please contact the Department of Neighborhood Empowerment at empowerla@lacity.org.

The Board approved this CIS by a vote of: Yea(7) Nay(0) Abstain(0) Ineligible(2) Recusal(0)

Date of NC Board Action: 08/20/2024

Type of NC Board Action: For if Amended

Impact Information

Date: 08/30/2024

Update to a Previous Input: No

Directed To: City Council and Committees

Council File Number: 23-0002-S144

City Planning Number:

Agenda Date:

Item Number:

Summary: Along with the North Westwood Neighborhood Council, the Rampart Village Neighborhood Council supports SB 960, which seeks to require Caltrans projects to implement complete streets, including pedestrian and cyclist facilities and transit priority features, and asks that the bill be added to the City of Los Angeles 2023-2024 and 2024-2025 State Legislative Programs in support. The RVNC also asks the California Legislature and our state legislators to approve SB 960, and asks the Los Angeles City Council to advocate for it. Unfortunately, recent changes to SB 960 in the Senate

Appropriations Committee added the language “to the extent feasible” to Section 14526.8 (1) and (2) and significantly weaken the bill. We oppose these changes, and ask that SB 960 be amended to exclude that phrase. With those critiques in mind, the RVNC urges the amendment and passage of SB 960 without delay. Caltrans controls state routes that travel through many cities and towns, including Los Angeles, and these state routes are often among our most dangerous roads. Although Caltrans has made some progress in adding more active transportation features, the agency often classifies any minor safety element such as a crosswalk or sign as a “Complete Street.” SB 960 will increase accountability and require Caltrans to comply with its own stated policies and add significant infrastructure that makes it safer and more convenient to bike, walk, and take transit on state-controlled streets. Numerous Mobility Plan 2035 upgrades are on Caltrans-managed roads, and Caltrans projects are not bound by Measure HLA. The most cost-effective time to add new bikeways, sidewalks, and transit improvements is during surfacing projects. Postponing upgrades will only harm the taxpayers of California by reducing safety and increasing long term costs.

August 20, 2024

Honorable Members of the Los Angeles City Council,

Along with the North Westwood Neighborhood Council, the RVNC supports SB 960, which seeks to require Caltrans projects to implement complete streets, including pedestrian and cyclist facilities and transit priority features, and asks that the bill be added to the City of Los Angeles 2023-2024 and 2024-2025 State Legislative Programs in support. The RVNC also asks the California Legislature and our state legislators to approve SB 960, and asks the Los Angeles City Council to advocate for it.

Unfortunately, recent changes to SB 960 in the Senate Appropriations Committee added the language “to the extent feasible” to Section 14526.8 (1) and (2) and significantly weaken the bill. We oppose these changes, and ask that SB 960 be amended to exclude that phrase. With those critiques in mind, the RVNC urges the amendment and passage of SB 960 without delay.

Caltrans controls state routes that travel through many cities and towns, including Los Angeles, and these state routes are often among our most dangerous roads. Although Caltrans has made some progress in adding more active transportation features, the agency often classifies any minor safety element such as a crosswalk or sign as a “Complete Street.”

SB 960 will increase accountability and require Caltrans to comply with its own stated policies and add significant infrastructure that makes it safer and more convenient to bike, walk, and take transit on state-controlled streets. Numerous Mobility Plan 2035 upgrades are on Caltrans-managed roads, and Caltrans projects are not bound by Measure HLA.

The most cost-effective time to add new bikeways, sidewalks, and transit improvements is during surfacing projects. Postponing upgrades will only harm the taxpayers of California by reducing safety and increasing long term costs.

In service,
Rampart Village Neighborhood Council
