Comments for Public Posting: Dear Members of the Los Angeles City Council, I strongly support implementing parking restrictions for oversized vehicles in the city. Unregulated parking of these vehicles has led to numerous issues that significantly impact residents' quality of life. One major concern is single owners monopolizing limited parking spaces with sometimes multiple RVs, severely restricting parking options for residents and causing daily inconveniences. Oversized RVs often remain parked for extended periods, reducing parking availability for others and affecting the neighborhood's livability and functionality. Improperly parked oversized vehicles obstruct motorists' line of sight, posing risks to drivers and pedestrians at intersections. Implementing parking restrictions for oversized vehicles would align with SEC. 80.71.3. PARKING IN FRONT YARDS, promoting aesthetics and order in residential areas. Enforcing similar regulations ensures a harmonious coexistence between residents and vehicle owners. Thank you for considering these concerns and taking action for the benefit of Los Angeles residents. Sincerely, Pammela Jackson

Comments for Public Posting: RV Restriction for Mar Vista neighborhood. Dear Members of the Los Angeles City Council, I strongly support implementing parking restrictions for oversized vehicles in the city. Unregulated parking of these vehicles has led to numerous issues that significantly impact residents' safety on a daily basis I have almost been struck by cars several times while walking my dog or crossing the street. These are these are so large that they impede my ability to see oncoming traffic, and the oncoming traffic's ability to see me. Single owner RV's are monopolizing limited parking spaces with sometimes multiple RVs, severely restricting parking options for residents and causing daily safety risk. Oversized RVs often remain parked for extended periods, reducing parking availability for others and affecting the neighborhood's livability and functionality. Improperly parked oversized vehicles obstruct motorists' line of sight, posing risks to drivers and pedestrians at intersections. Implementing parking restrictions for oversized vehicles would align with SEC. 80.71.3. PARKING IN FRONT YARDS, promoting aesthetics and order in residential areas. Enforcing similar regulations ensures a harmonious coexistence between residents and vehicle owners. Thank you for considering these concerns and taking action for the benefit of Los Angeles residents. Sincerely, Danielle Lovett
