**Comments for Public Posting:** Dear Councillor Park, I have been following the progress of this project and, although I think it may have merit, it seems to me that it has many unresolved issues and requires further study. Therefore, I am writing to request that the Lulu's Place project plan be referred to the Planning and Land Use Committee and the Airport Relations Committee for review before moving forward. There is really no reason to push this through so quickly. Quick action signals a lack of willingness to hear the voices of those who will be impacted the most by this project. I am a resident of Manitoba West. During your campaign you spoke here at Manitoba West and several residents made their fears about Lulu's Project clear. The project had been announced with little or no input from residents of our area and you knew little about it – like everyone else. Interestingly no changes have been proposed since the information was released. Councillor Park, as our new council member this is your first opportunity to shine for your constituents in the Playa del Rey area. I ask you to give strong consideration to the effort to refer this project for further review. Thank you, Michael Savitt 8162 Manitoba St Playa del Rey CA 90293
