Comments for Public Posting: Please approve the discretionary COLA for retired City employees. This will immensely help the great hike in prices of gas, food, utilities, daily commodities, and home and auto insurance. Thank you

Comments for Public Posting: The rise in inflation over the past two years has placed enormous pressure on retired city employee pensions. The proposed increase will only make a small economic dent compared to the rise in inflation. The situation is further hampered by age discrimination as employees try to seek employment to supplement their income. In addition, food bank stocks have dwindled due to demand and rising costs. Your vote for this increase will help the employees who dedicated their lives to the City. Thank you for your consideration.

Comments for Public Posting: PLEASE approve the 2.6% discretionary COLA for retired LACERS members! The usual 3% COLA (if approved) doesn't come near matching the rising costs of living. These people served the City for YEARS and deserve a retirement that (somewhat) keeps up with inflation.

Comments for Public Posting: The rise in the cost of living has been staggering. These are financially difficult times and inflationary pressures are affecting all of my spending. The additional 2.6% COLA would help all civilian retirees to defray some of the relentless cost increases we are experiencing daily.
