As a LACERS retiree, I support the discretionary COLA to assist retirees experiencing record breaking inflation. The LACERS Board of Administration recommends this action in light of an increasing consumer inflation cycle. This discretionary adjustment is not a new council action but one that City Council has enacted in 1982, 1986, 1989, and 2002, years of economic downturns. Please support the LACERS recommendations in providing support to its retirees as per the goals of the city charter.

**Comments for Public Posting:** Council should concern the adjusted COLA for the year of 2023. Cost of living has increased and so should our wages. Stop spending money campaigning for International Conferences and consider what LACER members need.
