Comments for Public Posting: I respectfully request the City Council and the Mayor to seriously consider approving the 2.6% discretionary COLA to city retirees. Inflation affects everybody and the 3% increase that retirees like me get is not nearly enough to keep up with the rising prices of food and other necessities.

Comments for Public Posting: Please approve LACER's Board discretionary 2.6% COLA. Our current 3% approval just isn't enough with inflation being at its all time highest. You have the power to make this happen for those of us who are struggling. I hope you pass this increase for all retirees's who have served the City so well.

Comments for Public Posting: 3 % increase is not a fair assessment for the cost of living increase for the state of California / City of Los Angeles: with rent, food and increase of utilities. The review for the COLA needs to be increase. (?) How does one arrive at reaching 3%?

Comments for Public Posting: I will support I am writing in support of the discretionary COLA as recommended by the LACERS Board for City retirees. Soaring prices for gasoline and food continue to create a financial and ongoing hardship for so many retirees This modest increase will have a positive impact on all retirees lives speaking personally. Thank you for considering approving this important and life changing discretionary COLA increase.
