Comments for Public Posting: Please, please, please consider the 2.85% discretionary one-time raise for us. I retired fourteen years ago from the city and let me tell you, I never realized it would be this hard, financially. The daily expenses of just gasing up the car, marketing and daily essentials of living has become increasingly expensive. And EVERYTHING keeps going up!! I truly enjoyed my time with The City and enjoyed helping passengers at the airport. It was a very rewarding job. I put in so much time and effort into my jobs but now, I feel it's time for the City to do a little something extra in our pockets for time serving the people of the City. Your approval is truly needed!!! Thank you
