Comments for Public Posting: it is imperative that we receive the maximum raise for retiree due to the cost-of-living and since I will be turning 65 and now have to pay into my medical. Even though I have retired from the city I put in a lot of long hours into my job making it easier for those who followed. I worked for the city for 37 1/2 years even through Breast Cancer and I believed the city would take care of me after retirement so it is imperative that we continue to receive the cost of living raise just as if we were still working we've done our time please don't dismiss us disregarding our financial status since we are no longer working. We paid our dues so please consider this cost-of-living raise and continue to make me believe in the city of Los Angeles fairness to their retirees .
