Attached please find our PHASE I ENVIRONMENTAL SITE ASSESSMENT, ("the Report") for the above-mentioned Subject Property. This report has been prepared by Odic for the Client under the professional supervision of the principal and/or senior staff whose seal(s) and signatures appear hereon. Neither Odic, nor any staff member assigned to this investigation has any interest or contemplated interest, financial or otherwise, in the subject or surrounding properties, or in any entity which owns, leases, or occupies the subject or surrounding properties , and has no personal bias with respect to the parties involved.

The assessment was conducted in a manner consistent with the level of care and skill ordinarily exercised by members of the profession, and in accordance with generally accepted practices of other consultants currently practicing in the same locality under similar conditions. No other representation, expressed or implied, and no warranty or guarantee is included or intended. The Report speaks only as of its date, in the absence of a specific written update of the Report, signed and delivered by Odic.

There are no intended or unintended third party beneficiaries to this Report, unless specifically named. Odic is an independent contractor, not an employee of either the issuer or the borrower, and its compensation was not based on the findings or recommendations made in the Report or on the closing of any business transaction. Thank you for the opportunity to prepare this Report, and assist you with this project. Please call us if you have any questions or if we may be of further assistance.

By signing below, Odic declares that, to the best of our professional knowledge and belief, the undersigned meet the definition of an Environmental Professional as defined in §312.10 of 40 CFR 312 and have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. Odic has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Respectfully Submitted,

Mike Miller

Senior Consultant per §312.10 of 40 CFR 312

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY) 10/21/2016

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

PRODUCER Van Oppen & Co. 2, Inc. P.O. Box 793 Teton Village, WY 83025 Rick van Oppen	CONTACT NAME: Brenda Todd PHONE (A/C, No, Ext): 800-746-0048 FAX (A/C, No): E-MAIL ADDRESS: service@vanoppenco2.com

EXECUTIVE SUMMARY

ODIC Environmental (hereinafter referred to as ODIC) performed a *Phase I Environmental Site Assessment* (hereinafter *Phase I ESA* or *Report*) of the subject property (hereinafter referred to as the Property) in conformance with the scope and limitations of ASTM Standard Practice E1527-13. Any exceptions to or deletions from this practice are described in the individual sections of this Report. A summary of findings is provided below:

REPORT COMPONENT	SUMMARY OF FINDINGS
Current Property Address(es)	The Property addresses are 1485, 1487, 1489, and 1501 West Sunset Boulevard, and 1314 McDuff Street, Los Angeles, Los Angeles County, California 90026.
Property Description	The Property consists of nine parcels totaling approximately 0.83 acres, eight of which are contiguous, one of which is separated from the other parcels by McDuff Street. The Property has the following primary improvements: • A ±3,672-square-foot two-story commercial building addressed 1485 West Sunset Boulevard (this building contains a vacant restaurant space and an area used for grocery warehousing on the ground floor, and partitioned office space on the second floor) • A ±5,700-square-foot one-story commercial building addressed 1487 West Sunset Boulevard (this building is occupied by A-Grocery Warehouse and contains a sales floor for dry goods, a checkout area, and a warehouse area) • A ±4,100-square-foot one-story commercial building addressed 1489 West Sunset Boulevard (this building is also occupied by A-Grocery Warehouse and contains meat and fish counters, a refrigerated produce area, a relatively small kitchen area, and walk-in coolers and freezers) • A ±5,000-square-foot two-story commercial building addressed 1501 West Sunset Boulevard (the ground floor of this building is used for storage of dry goods sold at the A-Grocery Warehouse store; the second floor consists of partitioned office space; the ground floor also contains an enclosed garage used for miscellaneous storage) Additional features of the Property include the following: a paved parking lot located west of the 1489 West Sunset Boulevard building; covered and fenced storage areas located north of the 1487 and 1489 West Sunset Boulevard buildings; a fenced and partially-covered walkway and storage area north of the 1485 West Sunset Boulevard building, which extends west to Portia Street; a fenced storage area north of the 1501 West Sunset Boulevard building; and an unimproved hillside (1314 McDuff Street) north of the parking lot.
Summary of Property Reconnaissance	Property is improved with four commercial buildings occupied by A-Grocery Warehouse, and is used for warehousing and sales of grocery items. No environmental concerns were observed during the site reconnaissance.

REPORT COMPONENT	SUMMARY OF FINDINGS
Historical Use of the Property and Vicinity	As of 1919, the Property was improved with multiple small structures, including several dwellings and one commercial building occupied by a carpet cleaning business. The current building addressed 1487 West Sunset Boulevard was constructed in phases in 1922, 1923, and 1931. The current building addressed 1489 West Sunset Boulevard was constructed in 1939. The current building addressed 1485 West Sunset Boulevard was constructed in 1940. Prior tenants of the foregoing buildings have included various commercial and retail businesses, including a commercial printing business that formerly occupied the building addressed 1485 West Sunset Boulevard during the late 1940s and 1950s. The foregoing buildings have reportedly been used as a grocery store and various other commercial/retail businesses since the mid-1980s when the current owners purchased the Property. The current building addressed 1501 West Sunset Boulevard was completed in 1977; this parcel was previously improved with a dwelling and adjoining small commercial building (the dwelling was later converted for commercial use). The current building has been historically occupied by various office- and medical office-based businesses. The vicinity was predominantly residential as of the early 1900s; the vicinity was subsequently developed and redeveloped in varying commercial and residential capacities.
Federal, State, and Local Agency Records Research	The Property was not identified in any researched federal, state, or local environmental databases. No environmental concerns were identified.
	Refer to Section 5.2 for records research details.
Potential Off-site Concerns	No properties within the specified search distances were identified that are assessed to pose an environmental concern to the Property.
Non-Scope Items	Unless the *Client* contracted ODIC to investigate specific Non-Scope or Non-CERCLA items, evaluation of Non-Scope or Non-CERCLA items, including those addressed in Section 3.5 of this Report, is neither required nor relevant for compliance with the AAI Rule or E1527-13.
Inaccessible or Un-surveyed Portions of the Property	Full access to the entire Property was provided to ODIC, and there were no notable portions of the Property excluded from the survey and field inspection.
Significant Data Gap	No significant data gaps were identified during the course of this Phase I Environmental Site Assessment.
Conclusion	REC identified: ☐ Yes ☒ No HREC identified: ☐ Yes ☒ No CREC identified: ☐ Yes ☒ No Significant data gap identified: ☐ Yes ☒ No For detailed discussion of Recognized Environmental Conditions (RECs), Historical Recognized Environmental Conditions (HRECs), and/or Controlled Recognized Environmental Conditions (CRECs) in connection with the Property, see Section 8.0 of this *Report*.
Recommendations and Opinions	Refer to Section 8.0 for ODIC's professional opinions and recommendations.

1.0 INTRODUCTION

ODIC Environmental (ODIC) performed a *Phase I Environmental Site Assessment Report* (hereinafter referred as "*Phase I ESA" or "Report"*) of the Property in conformance with the scope and limitations of the *ASTM International*, formerly known as the *American Society for Testing and Materials (ASTM), Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process, ASTM Designation E1527-13.*

This *Report* documents the methods and findings of the *Phase I ESA* performed in general conformance with the scope and limitations of ASTM Standard Practice E1527-13 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) for the Property.

This *Report* has been prepared by ODIC for the *Client* under the professional supervision of the principal and/or senior staff whose seal(s) and signature(s) appear hereon. Neither ODIC, nor any staff member assigned to this investigation has any interest or contemplated interest, financial or otherwise, in the subject or surrounding properties, or in any entity which owns, leases, or occupies the subject or surrounding properties or which may be responsible for environmental issues identified during the course of this investigation, and has no personal bias with respect to the parties involved.

PURPOSE AND OBJECTIVE

The purpose of this practice is to define good commercial and customary practice for conducting an *environmental site assessment* of a parcel(s) of *commercial real estate* with respect to the range of contaminants within the scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) and *petroleum products*. As such, this practice is intended to permit a *User (Client, Purchaser, Lender, Owner)* to satisfy one of the requirements to qualify for the *innocent landowner*, *contiguous property owner*, or *bona fide prospective purchaser* limitations on CERCLA liability (hereinafter, the "*landowner liability protections*," or "*LLPs*"): that is, the practice that constitutes "*all appropriate inquiry* into the previous ownership and uses of the *Property* consistent with good commercial or customary practice" as defined at 42 U.S.C. §9601(35)(B).

Another purpose of this *Phase I ESA* is to assist the *Client* in its underwriting of a proposed mortgage loan on the Property, if this *Report* is prepared as a part of a pre-financing environmental due diligence, and to identify *Recognized Environmental Conditions (RECs)* in connection with the Property described in this *Report*.

ASTM Standard Practice E1527-13 defines *a Recognized Environmental Condition (REC)* as the presence or likely presence of any *hazardous substances* or *petroleum products* in, on, or at a *property*: (*1*) due to *release to the environment*; (*2*) under conditions indicative of a *release* to the *environment*; or (*3*) under conditions that pose a *material threat* of a future *release* to the *environment*. Conditions determined to be *de minimis* generally do not present a threat to human health or the *environment* and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis conditions* are not *Recognized Environmental Conditions* or *Controlled Recognized Environmental Conditions*.

A C*ontrolled Recognized Environmental Condition (CREC)* is a *Recognized Environmental Condition* resulting from a past *release* of *hazardous substances* or *petroleum products* that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with *hazardous substances* or *petroleum products* allowed to remain in place subject to the implementation of required controls (for example, *property use restrictions*, *activity and use limitations*, *institutional controls*, or *engineering controls*).

A *Historical Recognized Environmental Condition (HREC)* is *a* past *release* of any *hazardous substances* or *petroleum products* that has occurred in connection with the *Property* and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the *Property* to any required controls (for example, property use restrictions, *activity and use limitations*, *institutional controls*, or *engineering controls*).

- *Resource Conservation and Recovery Act (also referred to as the Solid Waste Disposal Act), as amended ("RCRA"), 42*
- *U.S.C §6901 et seq.*
- *"All Appropriate Inquiries" Final Rule, 40 C.F.R. Part 312 Chapter 1 EPA, Subchapter J-Superfund, Emergency*
- *Planning, and Community Right-To-Know Programs, 40 C.F.R Parts 300-399 National Oil and Hazardous Substances Pollution Contingency Plan, 40 C.F.R. Part 300*
- *OSHA Hazard Communication Regulation, 29 C.F.R. §1910.1200*

SCOPE OF WORK

This *Report* was prepared for the exclusive use of the *Client or User of this Report*. The information reported was obtained through sources deemed reasonably ascertainable, as defined in ASTM Standard Practice E1527-13; a visual survey of areas readily observable, easily accessible or made accessible by the Property contact, and interviews with owners, agents, occupants, or other appropriate persons involved with the Property. Municipal information was obtained through file reviews of reasonably ascertainable standard government record sources, and interviews with the authorities having jurisdiction over the Property. Findings, conclusions, and recommendations included in the *Report* are based on our visual observations in the field, the municipal information reasonably obtained, information provided by the *Client (or User)*, and/or a review of readily available and supplied documents.

The scope of work for this *Phase I ESA* is in general accordance with the requirements of ASTM Standard Practice E 1527-13. This assessment included: 1) Property and adjacent site reconnaissance; 2) interviews with key personnel; 3) a review of standard historical sources; 4) a review of standard regulatory agency records; and 5) a review of a regulatory database report provided by a third-party company such as Environmental Data Resources (EDR).

LIMITATIONS AND EXCEPTIONS

ODIC renders no opinion as to the Property condition at un-surveyed and/or inaccessible portions of the Property, which are described below. ODIC relies completely on the information, whether written, graphic or verbal, provided by the Property contact or as shown on any documents reviewed or received from the Property contact, owner or agent, or municipal source, and assumes that information to be true and correct. The observations in this *Report* are valid on the date of the survey. Where access to portions of

the Property or to structures on the Property was unavailable or limited, ODIC renders no opinion as to the presence of petroleum products or hazardous substances in that portion of the Property or structure. In addition, ODIC renders no opinion as to the presence of, or indirect evidence relating to, petroleum products or hazardous substances where direct observation of the interior walls, floor, or ceiling of a structure was obstructed by objects or coverings on or over these surfaces.

The conclusions provided by ODIC are based on the information obtained by visual survey of the Property, and information provided by agents representing the Property, or agents of the owner. In addition, ODIC has relied on certain information provided by state and other referenced parties, and on information contained in the files of federal, state and/or local agencies available to ODIC at the time of the assessment. Although there may have been some degree of overlap in the information provided by these various sources, ODIC did not attempt to independently verify the accuracy or completeness of all information reviewed or received during the course of these Environmental Services.

CERCLA Requirements Other Than *All Appropriate Inquiry* (ASTM Standard Practice E1527-13 1.1.3) - This practice does not address whether requirements in addition to *All Appropriate Inquiries* have been met in order to qualify for the *LLPs* (specified in 42 U.S.C. §9607(b)(3)(a) and (b) including the continuing obligation not to impede the integrity and effectiveness of *Activity and Use Limitations*), or the duty to take reasonable steps to prevent releases, or the duty to comply with legally required release reporting obligations).

It is acknowledged that ODIC'S judgments shall not be based on scientific or technical tests or procedures beyond the Scope of Services or beyond the time and budgetary constraints imposed by the *Client*. It is acknowledged further that ODIC'S conclusions shall not rest on pure science but on such considerations as economic feasibility and available alternatives. The *Client* also acknowledges that, because geologic and soil formations are inherently random, variable, and indeterminate in nature, the conclusions and opinion of this *Report* are not guaranteed to be a representation of actual conditions on the Property, which are also subject to change with time as a result of natural or man-made processes, including water permeation.

In performing the Services, ODIC shall use that the degree of care and skill ordinarily exercised by environmental consultants or engineers performing similar services in the same or similar locality. The standard of care shall be determined solely at the time the Services are rendered and not according to standards utilized or in effect at a later date. The Services shall be rendered without any other warranty, expressed or implied, including, without limitation, the warranty of merchantability and the warranty of fitness for a particular purpose.

It should be noted that certain conditions may not have been reasonably identifiable or ascertainable from the available information during the course of this *Report*. ODIC assumes that information obtained from the record review and the interviews concerning the Property is reliable. However, ODIC cannot and does not warrant or guarantee that the information provided by these other sources is accurate or correct.

Some of the information provided in this *Report* is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This *Report* is subject to the limitations of historical documentation, availability, and accuracy of the pertinent records, and the personal recollections of those persons contacted. This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions of the LLPs. Furthermore, this *Report* does not intend to address health and safety concerns, if any, associated with the Property.

The assessment was conducted in a manner consistent with the level of care and skill ordinarily exercised by members of the profession, and in accordance with generally accepted practices of other consultants currently practicing in the same locality under similar conditions. No other representation, expressed or implied, and no warranty or guarantee is included or intended. The *Report* speaks only as of its date, in the absence of a specific written update of the *Report*, signed and delivered by ODIC.

Controlled substances are not included within the scope of this standard. Persons conducting an *environmental site assessment* as part of an EPA Brownfields Assessment and Characterization Grant awarded under CERCLA 42 U.S.C. §9604(k)(2)(B) must include controlled substances as defined in the Controlled Substances Act (21 U.S.C. §802) within the scope of the assessment investigations to the extent directed in the terms and conditions of the specific grant or cooperative agreement. Additionally, an evaluation of *business environmental risk* associated with a parcel of *commercial real estate* may necessitate investigation beyond those identified in this practice.

SIGNIFICANT ASSUMPTIONS AND LIMITING CONDITIONS

The objective of ASTM Standard Practice E1527-13 is to help *Users* qualify for one of the CERCLA Landowner Liability Protections (LLPs). *Users* should be aware that there are other federal, state, and local environmental laws and regulations that can impose liabilities and obligations on owners and operators of real property that are outside the scope of this practice. This practice does not address all possible environmental liabilities that a *User* may need to consider in the context of a commercial real estate transaction. Therefore, *Users* may desire to expand the scope of pre-purchase or pre-finance due diligence to assess other business environmental risks that exist beyond CERCLA liability associated with the Property.

Business Environmental Risk (BER) is a risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of commercial real estate, and is not an issue required to be investigated under this practice. A BER may include one or more of the non-scope issues contained in Non-Scope Considerations. Evaluation of Non-Scope or Non-CERCLA items, including those addressed in this *Report*, is not required nor relevant for compliance with the AAI Rule or ASTM Standard Practice E1527-13. Inclusion of any non-scope item in a Phase I Environmental Site Assessment report is entirely within the discretion of the *User* based on its own risk tolerance. Non-Scope Consideration should not be construed as requiring the inclusion of any non-scope issues in a Phase I Environmental Site Assessment report.

Any additional services contracted for between the *User* and ODIC including a broader scope of assessment, more detailed conclusions, liability/risk evaluations, recommendation for Phase II testing or other assessment activities, remediation techniques, etc., are beyond the scope of ASTM Standard Practice E1527-13, not part of this *Report*, and should only be included in the *Report* if so specified in the terms of engagement between the *User* and ODIC. Such additional services may include *business environmental risk* issues not included within the scope of this practice (ASTM Standard Practice E1527-13).

ASTM Standard Practice E1527-13 does not encompass analytical testing to evaluate Asbestos Containing Materials (ACM), radon, lead-based paint (LBP), drinking water quality, lead in drinking water, wetlands, regulatory compliance, cultural and historical resources, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality, biological agents, mold, stored chemicals, debris, fill materials, surface water, or subsurface samples (soil and groundwater) as part of a Phase I ESA. Such additional information regarding non-ASTM Standard Practice E1527-13 issues may be provided merely for the *User's* convenience, and cannot be used to bind this *Report* as a whole to the compliance and conformance with ASTM Standard Practice E1527-13. No disassembly of systems or building components or physical or invasive testing is to be performed unless the *Client* specifically calls for such testing as an additional scope of work.

ODIC has performed this *Phase I ESA* in conformance with the scope and limitations of ASTM Standard Practice E1527-13. This *Report* may not include all environmental conditions which can materially impact the Property other than those defined as RECs in ASTM Standard Practice E1527-13.

ODIC is not contracted to perform *Environmental Liens* and *Activity and Use Limitations (AULs)* searches via title records, and such is beyond the scope of services included in this *Report*. Information pertaining to deed restrictions and environmental liens, Activity/Use Limitations, title search/report was requested from the *Report User*. This information may or may not be provided to ODIC at the time of the assessment. See pertinent sections of this *Report* for further discussion.

Interviews with past or current owners, operators and occupants may not be reasonably ascertainable and can constitute a data gap. Based on information obtained from other historical sources (as discussed in Section 4.0), this data gap may or may not be expected to alter the findings of this assessment. See Section 8.0 for further discussion.

Adjoining sites, neighboring sites, or surrounding properties mentioned in this *Report* are defined only up to one parcel immediately next to the Property, and ODIC will only check immediately adjoining properties to identify historical use of the surrounding areas via historical sources or data on such adjoining properties, and/or walk-through visual inspection along the Property's perimeters to identify obvious signs of environmental concerns.

It is often not possible (under the "*reasonably ascertainable*" clause of the ASTM Standard Practice E1527-13) to identify every single historical business tenant or occupant of the Property. ODIC cannot be liable for not identifying all such past tenants or occupants of the project site.

This ESA did not necessarily comply with the ASTM Standard Practice E2600-15 "Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions." For assessment of potential "vapor encroachment conditions" (VECs) and to determine if a "vapor intrusion condition" (VIC) exists on-site, additional investigation beyond ASTM Standard Practice E1527-13 is required.

For the purposes of ASTM Standard Practice E1527-13, "migrate" and "migration" refers to the movement of *hazardous substances* or *petroleum products* in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface. Vapor migration in the subsurface is described in ASTM Standard Practice E2600-15; however, nothing in this practice (ASTM Standard Practice E1527-13) should be construed to require application of ASTM Standard Practice E2600-15 standard to achieve compliance with all appropriate inquiries.

USER RELIANCE

This investigation was conducted in accordance with the *Client's* Environmental Site Assessment scope of work for the use and benefit of the *Client* and assignees. It is based, in part, upon documents, writings, and information owned, possessed, or secured by the *Client*. Neither this *Report*, nor any information contained herein, shall be used or relied upon for any purpose by any other person or entity without the express written permission of the *Client*.

All reports, both verbal and written, are for the sole use and benefit of the *Client*. Either verbally or in writing, third parties may come into possession of this *Report* or all or part of the information generated as a result of this work. In the absence of a written agreement with ODIC granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against ODIC, its officers, employees, vendors, successors or assigns. Any such unauthorized user shall be responsible to protect, indemnify and hold ODIC, the *Client* and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such use. Unauthorized use of this *Report* shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties

may apply.

INDEPENDENT CONTRACTOR STATUS / PROFESSIONAL RESPONSIBILITY

In performing Services under the mutually agreed contractual agreement and verbal engagement, ODIC operates as, and has the status of, an independent contractor. Subject to any limitations established by the *Client* as to the degree of care and amount of time and expenses to be incurred and any other limitations contained in the mutually agreed contractual agreement and verbal engagement, ODIC performs the Services consistent with the level of care and skill ordinarily exercised by other professional consultants under similar circumstances at the time the Services are performed. *Client* hereby acknowledges that whenever a Project involves hazardous or toxic materials there are certain inherent risk factors involved (such as limitations on laboratory analytical methods, variations in subsurface conditions, economic loss to *Client* or Property owner, a potential obligation for disclosure to regulatory agencies, a potential for a decrease in market value of real property, and the like) that may adversely affect the results of the Project, even though the Services are performed with such skill and care. No other representation, warranty, or guarantee, express or implied, is included or intended by the mutually agreed contractual agreement and verbal engagement.

QUALIFICATION STATEMENT OF ENVIRONMENTAL PROFESSIONAL

ODIC states that this ESA was performed under *Environmental Professional (EP)'s* direct supervision, that he/she has prepared and/or reviewed and approved the *Report*, and that the methods and procedures utilized in the development of this *Report* conform to minimum industry standards using both the *ASTM International*, formerly known as the *American Society for Testing and Materials (ASTM)*, Standard Practice E1527-13 and the United States – Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) as guidelines. ODIC certifies that ODIC's *Environmental Professionals* and *Subcontractors* are properly licensed, qualified and/or certified to conduct *Phase I Environmental Site Assessments*.

ODIC's EP declares that, to the best of his/her professional knowledge and belief, he/she meets the definition of *Environmental Professional* as defined in 40 CFR Part 312. ODIC's EP who prepared this assessment possesses the specific qualifications based upon education, training and experience to assess a property of the nature, history, and setting of the Property. ODIC has developed and performed the "*All Appropriate Inquiries*" in accordance with the standards and practices as defined in 40 CFR Part 312.

2.0 PROPERTY DESCRIPTION

2.1 PROJECT INFORMATION

Project Information	
ITEM	
Project Number	6363243-ESAI
Property Address(es)	1485, 1487, 1489, and 1501 West Sunset Boulevard, and 1314 McDuff Street, Los Angeles, Los Angeles County, California 90026
Historical/Alternate Property Address(es)	1483, 1491, 1495, and 1503 West Sunset Boulevard
	Source: Sanborn Map Company fire insurance maps
Tax Assessor's Parcel Numbers	5406-001-014 5406-001-016 5406-001-017 5406-001-018 5406-001-019 5406-001-020 5406-001-021 5406-001-022 5419-027-007
Property Name	Not applicable
Property Inspection Date	January 13, 2017
Weather Condition	Sunny, approximately 55 degrees Fahrenheit
Site Visit Conducted by	Neil Kuemerle, Environmental Consultant
Report Author	Neil Kuemerle, Environmental Consultant
QA/QC Environmental Professional	Michael A. Miller, M.S., Senior Environmental Consultant
Property Location	The Property is located on the north side of West Sunset Boulevard, west of Portia Street. All parcels are contiguous, except the westernmost Property parcel (5419-027-007 addressed 1501 West Sunset Boulevard), which is separated from the other parcels by McDuff Street.
General Setting	Commercial/residential

2.2 PROPERTY IMPROVEMENTS

Property Improvements & Building / Land Description	
ITEM	
Property Description	The Property consists of nine parcels totaling approximately 0.83 acres, eight of which are contiguous, one of which is separated from the other parcels by McDuff Street. The Property has the following primary improvements: • A ±3,672-square-foot two-story commercial building addressed 1485 West Sunset Boulevard (this building contains a vacant restaurant space and an area used for grocery warehousing on the ground floor, and partitioned office space on the second floor) • A ±5,700-square-foot one-story commercial building addressed 1487 West Sunset Boulevard (this building is occupied by A-Grocery Warehouse and contains a sales floor for dry goods, a checkout area, and a warehouse area) • A ±4,100-square-foot one-story commercial building addressed 1489 West Sunset Boulevard (this building is also occupied by A-Grocery Warehouse and contains meat and fish counters, a refrigerated produce area, a relatively small kitchen area, and walk-in coolers and freezers) • A ±5,000-square-foot two-story commercial building addressed 1501 West Sunset Boulevard (the ground floor of this building is used for storage of dry goods sold at the A-Grocery Warehouse store; the second floor consists of partitioned office space; the ground floor also contains an enclosed garage used for miscellaneous storage) Additional features of the Property include the following: a paved parking lot located west of the 1489 West Sunset Boulevard building; covered and fenced storage areas located north of the 1487 and 1489 West Sunset Boulevard buildings; a fenced and partially-covered walkway and storage area north of the 1485 West Sunset Boulevard building, which extends west to Portia Street; a fenced storage area north of the 1501 West Sunset Boulevard building; and an unimproved hillside (1314 McDuff Street) north of the parking lot.
	Data Source(s) for Property Size: CBRE sales listing for the Property
	Data Source(s) for Building Size(s): Los Angeles County Office of the Assessor Property Assessment Information System
Estimated Year of Construction	1485 West Sunset Boulevard: 1940 1487 West Sunset Boulevard: 1922/1923, and 1931 1489 West Sunset Boulevard: 1939 1501 West Sunset Boulevard: 1977
	Data Source(s): City of Los Angeles building permit records and the Los Angeles County Office of the Assessor Property Assessment Information System

Improvement Description	1485, 1487, and 1489 West Sunset Boulevard: Exterior construction of these adjoining buildings consists of brick, concrete masonry unit (CMU), and stucco and wood frame walls, concrete foundations, and flat built-up roofs. Interior features are described in the "Property Description" section, above. 1501 West Sunset Boulevard: Exterior construction consists of stucco and wood frame walls, a concrete foundation, and a flat built-up roof. Interior features are described in the "Property Description" section, above.
	See also appended photographs and site plot plan.
Other Improvements & Features (including description of unimproved areas)	No other significant improvements, features or unimproved areas were observed.

2.3 PROPERTY OCCUPANTS & USE

Property Occupants & Use	
ITEM	
Present Occupant(s) and Detailed Description of Business Operation(s)	A-Grocery Warehouse, a grocery store and home goods retailer, occupies the entirety of the buildings addressed 1487 and 1489 West Sunset Boulevard. The north ground floor portion of the building addressed 1485 West Sunset Boulevard, and the ground floor portion of the building addressed 1501 West Sunset Boulevard, are used for warehouse/storage purposes for goods sold by A-Grocery Warehouse. The north ground floor portion of the building addressed 1485 West Sunset Boulevard is unoccupied and is configured as a kitchen/restaurant area. The second floor of the building addressed 1485 West Sunset Boulevard is used as office space by A-Grocery Warehouse. The second floor portion of the building addressed 1501 West Sunset Boulevard is used as general office and storage space. The entirety of the building addressed 501 West Sunset Boulevard was recently occupied by Super Home Mart, a home goods retail/wholesale business, but is currently only used for general office/storage purposes.

2.4 MUNICIPAL SERVICES & UTILITIES

Municipal Services & Utilities	
ITEM	
Potable Water Supply	Los Angeles Department of Water and Power
Natural Gas Utility Provider	Southern California Gas Company
Electrical Utility Provider	Los Angeles Department of Water and Power
Sewage Disposal System	City of Los Angeles
Solid Waste Disposal	Consolidated Waste Disposal or other privately contracted waste hauler

Any Septic System, Cesspool, Seepage Pits	There were none observed or reported.
Private Water Well	There were none observed or reported.
Heating/Cooling System	Roof-mounted HVAC equipment (no fuel oil is used)

2.5 PHYSICAL SETTING

TOPOGRAPHY

The Property's physical location was researched employing a United States Geological Survey (USGS) 7.5 Minute Topographic Quadrangle (Quad) Map relevant to the Property. The USGS 7.5 Minute Quad Map has an approximate scale of 1 inch to 2,000 feet, and may show physical features with environmental significance such as wetlands, water bodies, roadways, mines, and buildings. The elevation of the Property is approximately 380 feet above mean sea level. There is a downslope to the south-southwest on and near the Property. The northernmost undeveloped portion of the Property is a hillside that slopes significantly to the south-southwest.

GEOLOGY AND HYDROGEOLOGY

Geologic and hydrogeologic information was obtained from site assessment documents prepared for a site located at 1157 Echo Park Avenue (Hollyway Cleaners), located approximately 700 feet west of the Property:

> *The Site is located in the southern boundary of the Transverse Ranges Geomorphic Province, an area of east-west trending mountains and valleys that incorporate the Santa Monica Mountains. This province is derived from the east-to west trending mountain ranges and valleys. Northwest of the site is the southeastern edge of the Santa Monica Mountains and north to northeast of the site is the Elysian Hills, a series foothills created by the Elysian Park Fault and the Elysian Park Anticline. Locally the Site is situated near the eastern edge of a narrow alluvial valley that is flanked by low hills composed of Puente Formation siltstone bedrock.*
>
> *Based upon previous investigations of the Site, the sediments in the vicinity of the Site are chiefly composed of silt and clay with occasional layers of sandy silt and sandy clay. Bedrock (the Puente Formation siltstone) is encountered between 34 to 42 feet bgs.*
>
> *Groundwater is encountered at depths between approximately 5 feet and 15 feet below the ground surface ("bgs"). The groundwater flow direction is to the southwest towards Echo Lake.*
>
> Source:
>
> *Revised Soil and Soil Vapor Investigation Work Plan*, prepared by Genesis Engineering & Redevelopment, dated June 30, 2015 (http://geotracker.waterboards.ca.gov/esi/uploads/geo_report/6502448797/SL2048E1699.PDF)

While groundwater flow direction at the Property cannot be confirmed without survey measurement of static groundwater level at triangulated points, it is expected to flow in the direction of surface topographical contour, or toward the wetland or nearest water body or discharge basin (percolation channel).

It is important to note that groundwater flow direction can be influenced locally and regionally by the presence of local wetland features, surface topography, recharge and discharge areas, horizontal and vertical inconsistencies in the types and location of subsurface soils, and proximity to water pumping wells.

Depth and gradient of the water table can change seasonally in response to variation in precipitation and recharge, and over time, in response to urban development such as storm water controls, impervious surfaces, pumping wells, cleanup activities, dewatering, seawater intrusion barrier projects near the coast, and other factors.

3.0 PROPERTY RECONNAISSANCE

3.1 LIMITING CONDITIONS

The information reported herein was obtained through sources deemed reliable, a visual site survey of areas readily observable, easily accessible or made accessible by the Property contact, and interviews with owners, agents, occupants, or other appropriate persons involved with the Property.

No disassembly of systems or building components or physical or invasive testing was performed. ODIC renders no opinion as to the Property condition at un-surveyed and/or inaccessible portions of the Property. ODIC relies completely on the information, whether written, graphic or verbal, provided by the Property contact or as shown on any documents reviewed or received from the Property contact, owner or agent, or municipal source, and assumes that information to be true and correct. The observations in this *Report* are valid on the date of the survey. Note: Typically lenders have environmental policies where due diligence reports are valid for one year from the report date. However, such policies and standards can vary from each lender or *User*. For CERCLA landowner liability protection, Phase I ESA reports are valid for 180 days, per ASTM Standard Practice E1527-13.

3.2 PROPERTY RECONNAISSANCE

ODIC conducted interior and exterior observations of the Property with the intent to identify *releases* or *material threat* of future *releases* of *hazardous substances* or *petroleum products* to the *environment*. The site reconnaissance table below lists items *visually and/or physically observed*.

Property Reconnaissance	
ITEM	
Processes involving Petroleum Products or Hazardous Substances	There were none observed, excepting small containers (less than one gallon) household cleaners for retail sale within the grocery store area of the building addressed 1487 West Sunset Boulevard.
Underground Storage Tanks (USTs)	There were none observed.
Aboveground Storage Tanks (ASTs)	There were none observed.
Fuel Islands / Dispensers, or any type of fueling system/operation	There were none observed.
Containers or Drums of Hazardous Materials and/or Petroleum Products related to the Property's operations/processes	There were none observed. One 55-gallon drum of cooking oil/grease was in the vacant restaurant area of the building addressed 1485 West Sunset Boulevard. Cooking oil/grease is not considered hazardous for the purposes of this assessment.
Unidentified Substance Containers: Other containers of suspect hazardous materials in drums, barrels, or other storage, or unlabeled/unidentified containers on site	There were none observed.
Stained or Corroded Surfaces / Stained Soil (paved or unpaved)	There were none observed.

Property Reconnaissance	
ITEM	
Unusual areas of asphalt/cement patch or surface depressions including any possible boring locations	There were none observed.
Stockpiled soils, fill materials, or soil piles	There were none observed.
Stressed vegetation	There were none observed.
Any type of heavy equipment or machinery of environmental concern	There were none observed.
Electrical or hydraulic equipment or machinery of environmental concern	There were none observed.
Drains for machinery/equipment cleaning or flushing	There were none observed.
Evidence of onsite surface water impoundment, pits, dry wells or sensitive surface water features such as lagoons, ponds, and other water bodies	There were none observed.
Drains, sumps, wastewater treatment units, oil/water separators, clarifiers, catch basins, drip pads, or sumps	Multiple drains are within the buildings addressed 1485, 1487, and 1489 West Sunset Boulevard. These are associated with former restaurant operations, and current and former walk-in coolers and freezers. No associated environmental concerns were identified.
Any regulated surface-water discharges, illegal dumping, unauthorized surface runoff or discharge to potentially impact water bodies	There were none observed.
Storm water or surface-water drainage system having any abnormal accumulation of petroleum or chemical run-off or foreign materials, any unusual blockage of the storm-water control systems	There were none observed.
Pools of liquid such as standing surface water, pools or sumps containing liquids likely to be hazardous substances or petroleum products	There were none observed.
Odors (strong, pungent, or noxious odors and their sources)	There were none observed.
Septic systems, cesspools, seepage pits	There were none observed.

Property Reconnaissance	
ITEM	
Wells (private water wells, irrigation wells, injection wells, abandoned wells, groundwater-monitoring wells, dry wells, septic wells, oil wells, gas wells, domestic water wells, vapor recovery wells or other-monitoring wells)	There were none observed.
Railroad tracks or spurs	There were none observed.
Visual evidence of improper handling/disposal of solid wastes	There were none observed.

3.3 DETAILED DESCRIPTION OF SITE RECONNAISSANCE AND ENVIRONMENTAL CONDITIONS

Property is improved with four commercial buildings occupied by A-Grocery Warehouse, and is used for warehousing and sales of grocery items. No environmental concerns were observed during the site reconnaissance.

3.4 CURRENT USES OF ADJACENT PROPERTIES

For the scope of this assessment, properties are defined and categorized based upon their physical proximity to the Property. An adjoining property is defined as any real property or properties in which the border is contiguous or partially contiguous with that of the Property, or that would be contiguous or partially contiguous with that of the Property but for a street, road, or other public thoroughfare separating them.

Adjacent Properties	
ITEM	
North	To the north are the following, in order of west to east: • A multi-tenant residential building addressed 1330 Laveta Terrace • A single-family dwelling addressed 1340 Leveta Terrace • A multi-tenant residential building addressed 1311 Portia Street
South	To the south is West Sunset Boulevard, followed by (in order of west to east): • A multi-tenant commercial/retail building addressed 1508-1520 West Sunset Boulevard • A multi-tenant commercial/retail building addressed 1496-1506 West Sunset Boulevard • A multi-family residential building addressed 1492 and 1494 West Sunset Boulevard • Multi-family residential buildings addressed 1486-1488 West Sunset Boulevard • A single-family dwelling addressed 1484 West Sunset Boulevard • Multi-family residential buildings addressed 1478-1480 West Sunset Boulevard • A single-family dwelling addressed 1476 West Sunset Boulevard
West	To the west is a multi-tenant medical office building addressed 1509 West Sunset Boulevard.

East	To the east is a multi-tenant commercial building addressed 1501-1503 West Sunset Boulevard and 1305 Portia Street. A narrow parcel of the Property also extends eastward to Portia Street. East of Portia Street from the Property is a multi-tenant residential building addressed 1314 Portia Street.
Northwest	To the northwest is an undeveloped parcel (no address available), and Laveta Terrace.
Northeast	Refer to the north- and east-adjacent properties.
Southwest	Refer to the south-adjacent properties.
Southeast	Refer to the south-adjacent properties.

3.5 NON-SCOPE (NON-ASTM) CONSIDERATIONS

Evaluation of Non-Scope or Non-CERCLA items, including those addressed in Section 3.4 of this *Report*, is not required nor relevant for compliance with the AAI Rule or ASTM Standard Practice E1527-13. Inclusion of any non-scope item in a Phase I Environmental Site Assessment report is entirely within the discretion of the *User* based on its own risk tolerance. Non-Scope Consideration should not be construed as requiring the inclusion of any non-scope issues in a Phase I Environmental Site Assessment report.

Any additional services contracted for between the *User* and ODIC Environmental including a broader scope of assessment, more detailed conclusions, liability/risk evaluations, recommendation for Phase II testing or other assessment activities, remediation techniques, etc., are beyond the scope of Standard Practice E1527-13, are not part of this *Report*, and should only be included in the *Report* if so specified in the terms of engagement between the *User* and ODIC. Such additional services may include *business environmental risk* issues not included within the scope of this practice (ASTM Standard Practice E1527-13). No implication is intended as to the relative importance of inquiry into such non-scope considerations, and this list of non-scope considerations is not intended to be all-inclusive.

There may be environmental issues or conditions at a *Property* that parties may wish to assess in connection with *commercial real estate* that are outside the scope of this practice (the non-scope considerations). As noted by the legal analysis in Appendix X1 of ASTM Standard Practice E1527-13, some substances may be present on the Property in quantities and under conditions that may lead to contamination of the *property* or of nearby properties but are not included in CERCLA's definition of *hazardous substances* (42 U.S.C. §9601(14)) or do not otherwise present potential CERCLA liability. In any case, they are beyond the scope of this practice.

Whether or not a *User* elects to inquire into non-scope considerations in connection with this practice or any other *environmental site assessment*, no assessment of such non-scope considerations is required for appropriate inquiry as defined by this practice.

NON-SCOPE, NON-CERCLA ITEMS	
ITEM	
Suspect asbestos-containing building materials (ACBM) in damaged condition if the structure is built prior to 1978	Since an asbestos survey is not included in the scope of services for this Phase I ESA, ODIC did not test suspect asbestos-containing building materials (ACBM) at the Property. However, because improvements at the Property were constructed prior to 1978, the presence of ACBM is possible. It is important to note that State and Federal Laws impose special requirements for handling these materials, especially in the event of remodeling or demolition that may impact these materials. Prior to any remodeling or demolition, the Property owner must have properly certified personnel test all suspect ACBM to be disturbed by the work. If ACBM are identified and are subject to disturbance, the Property owner must have properly certified personnel prepare and implement work procedures and associated Operations and Maintenance Plans, as applicable. The Property owner/occupant should assure compliance with all applicable regulations, notably AHERA, OSHA, and the General Construction Standard (as applicable).
Suspect lead-based paint (LBP) in damaged condition if the structure is residential and was built prior to 1978	Since a lead-based paint survey is not included in the scope of services for this Phase I ESA, ODIC did not test suspect lead-based paint (LBP) at the Property. However, because improvements at the Property were constructed prior to 1978, the presence of LBP is possible. It is important to note that State and Federal Laws impose special requirements for handling these materials, especially in the event of remodeling or demolition that may impact these materials. Prior to any remodeling or demolition, the Property owner must have a certified/licensed LBP consultant test all suspect LBP to be disturbed by the work. If LBP are identified and are subject to disturbance, the Property owner must have properly certified personnel prepare and implement work procedures and associated Operations and Maintenance Plans, as applicable. The Property owner/occupant should assure compliance with all applicable regulations, notably OSHA, and the General Construction Standard (as applicable).
Lead in drinking water (LIW)	Since a lead in drinking water survey is not included in the scope of services for this Phase I Environmental Site Assessment, ODIC did not test drinking water at the Property for lead content. The major source of LIW is leaching of lead from household plumbing materials or water service lines used to bring water from the main to the building. Lead can leach into drinking water through contact with the plumbing, solder, fixtures and faucets (brass), and fittings. The amount of lead in drinking water will be influenced by the type and amount of minerals in the water, how long the water stays in the pipes, the amount of wear in the pipes, the water's acidity and its temperature.

NON-SCOPE, NON-CERCLA ITEMS	
ITEM	
Radon	Since a radon survey is not included in the scope of services for this Phase I ESA, ODIC did not test for radon at the Property. Radon is a naturally-occurring, odorless, invisible gas. Natural radon levels vary and are closely related to geologic formations. Radon may enter buildings through basement sumps or other openings. A review of the EPA's Map of Radon Zones indicates that Los Angeles County falls within Zone 2, a zone of low moderate potential. Counties located within Zone 2 have a predicted average indoor radon screening level of 2 to 4 picocuries per liter (pCi/L), generally below EPA's radon action level of 4 pCi/L for residential structures. A radon survey was not included in the current scope of services. *Source: https://www.epa.gov/radon/find-information-about-local-radon-zones-and-radon-programs* It should be noted that site-specific radon levels vary greatly within the EPA radon zones and on-site radon measurements would need to be collected in order to determine the Property radon levels.
Urea Formaldehyde	A UFFI survey was not included in the scope of services for this Phase I ESA. The sale and installation of Urea Formaldehyde Foam Insulation (UFFI) as thermal insulation began in approximately 1970, and continued until December 1980 when it was banned under the federal *Hazardous Products Act*. UFFI was installed in both new and existing buildings during this period. UFFI was not commonly used in industrial or commercial buildings.
Suspect PCB-oil concern with hydraulic equipment, ballasts, transformers, etc.	Since a PCB survey is not included in the scope of services for this Phase I ESA, ODIC did not test for PCBs at the Property.
Wetlands, creeks, swale, pits, ponds, lagoons, or any other water bodies	A wetland is defined as areas inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands provide a number of economically and environmentally important functions such as flood control, water quality protection, groundwater recharge, spawning areas for commercially important fish, and wildlife habitat. Wetlands are evaluated using three indicators: hydrology, hydrophytic vegetation, and hydric soils. Section 404 of the Clean Water Act requires a permit before dredged or fill material may be discharged into regulated wetlands (known as Jurisdictional Wetlands). The Army Corps of Engineers has primary responsibility for making wetlands jurisdictional determinations and issuing wetlands permits. A number of activities are authorized through the use of nationwide permits. A wetland study or survey is not included in the current scope of services for this Phase I ESA. However, based on a review of the EDR Radius Map Report, the site is not within a mapped National Wetland Inventory location.

NON-SCOPE, NON-CERCLA ITEMS	
ITEM	
Visual evidence of mold problems from wet areas, roof leaks, moisture around air conditioning or plumbing units	Since a mold/microbial matter survey is not included in the scope of services for this Phase I ESA, ODIC did not test for mold/microbial matter at the Property.
Indoor air quality unrelated to *releases* of *hazardous substances* or *petroleum products* into the *environment* (unusual smells, noxious odors, or visual emissions, air emission stacks), excluding impacts to indoor air from releases of hazardous substances into the environment	Since indoor air quality testing is not included in the scope of services for this Phase I ESA, ODIC did not conduct indoor air quality testing at the Property. There are many sources of indoor air pollution. These include combustion sources such as oil, gas, kerosene, coal, wood, tobacco products, asbestos-containing materials, wet or damp carpet, formaldehyde, certain pressed wood products, cleaning and maintenance chemicals, and pesticides. EPA estimates that indoor levels of air pollutants can be two to five times higher, and occasionally 100 times higher, than outdoor levels. In general, EPA does not regulate indoor air quality except to the extent that indoor air impacts are caused by releases of hazardous substances into subsurface soil or groundwater (vapor intrusion).
Flood Zone	The Federal Emergency Management Agency Flood Insurance Rate Map is typically used to determine if the Property is located within a flood zone. Such evaluation is not included in the scope of work for this Phase I ESA. However, based on a review of a flood zone map contained in an EDR Radius Map Report, the Property is not located within a 100-year or 500-year flood zone.
Methane Gas	Since a methane gas survey is not included in the scope of services for this Phase I ESA, ODIC did not test for methane gas at the Property. In response to concern regarding the potential for methane accumulation beneath buildings, and potential methane intrusion into buildings, some cities or regulatory oversight agencies have established methane zones and/or methane buffer zones based on the proximity to oil wells, landfills, or naturally occurring methane deposits. A methane risk assessment is not included in the scope of work for this Phase I ESA.

NON-SCOPE, NON-CERCLA ITEMS	
ITEM	
Other non-scope considerations discussed in Appendix X1 and Appendix X5 of ASTM Standard Practice E1527-13	No implication is intended as to the relative importance of inquiry into such non-scope considerations, and this list of non-scope considerations is not intended to be all-inclusive. These items are not included in the current scope of services for this Phase I ESA. *Endangered Species Act*—Under the Endangered Species Act (ESA), the government protects endangered and threatened plants and animals (listed species) and their habitats. The presence of listed species can restrict use of the Property to ensure that the proposed activities do not adversely affect endangered or threatened species as well as their critical habitats. This includes *Biological agents, Cultural and historical resources, and* Ecological resources. *Compliance with AULs*—Parties who wish to qualify for one of the *LLPs* will need to know whether they are in compliance with AULs, including land use restrictions that were relied upon in connection with a response action. A determination of compliance with AULs is beyond the scope of ASTM Standard Practice E1527-13. *Regulatory Compliance (Includes Health and Safety and Industrial Hygiene)*—Properties used for industrial, commercial and even residential purposes are frequently subject to a panoply of environmental laws and regulations that relate to many aspects of operations conducted at the Property. In the context of a property transaction, noncompliance with environmental laws and regulations may create a material risk of financial loss for both building operators and owners of the properties. *Potential Effects of Noncompliance*—Depending on the circumstances, noncompliance with various regulatory requirements could result in material costs to owners and operators of industrial, commercial or residential properties, including fines or other monetary penalties, injunctions or other equitable relief that slows or eliminates productivity, and could result in increased transaction costs associated with defending claims of noncompliance. Furthermore, even in the absence of administrative or legal enforcement proceedings, the costs to bring facilities into compliance with applicable regulatory requirements could be material in some circumstances.

4.0 PROPERTY AND VICINITY HISTORY

The objective of consulting historical sources is to develop a history of the previous uses of the Property and surrounding area, in order to help identify the likelihood of past uses having led to Recognized Environmental Conditions (RECs), Controlled Recognized Environmental Conditions (CRECs), or Historical Recognized Environmental Conditions (HRECs) in connection with the Property. ODIC exercises professional judgment and consider the possible *releases* that might have occurred at a Property in light of the historical uses and, in concert with other relevant information gathered as part of the Phase I process, to use this information to assist in identifying RECs, CRECs, and/or HRECs in connection with the Property. Historical Records Search was conducted for the Property in conformance with the scope and limitations of ASTM Standard Practice E1527-13.

4.1 PREVIOUS ENVIRONMENTAL REPORTS

Phase I Environmental Site Assessment (of the Property), prepared by ODIC, dated January 27, 2014:

At the time of ODIC's 2014 assessment of the Property, the Property was similarly configured to the present and was used in a similar capacity to the present. ODIC's 2014 assessment did not appear to include the undeveloped hillside to the north of the parking lot area (APN 5406-001-022). The building addressed 1485 West Sunset Boulevard was occupied by A-1 BBQ Food to-go, and the building addressed 1501 West Sunset Boulevard was occupied by Super Home Mart.

ODIC's historical research of the Property was summarized as follows:

> *The subject property was vacant land until it was developed with a furniture store in the 1920s and 1930s. The building addressed 1485 West Sunset Boulevard was occupied by a beauty shop in the 1940s, an advertising agency with a printing shop in the 1950s, and a rug/carpet store in the 1960s. The building addressed 1487 West Sunset Boulevard was occupied by a glass and mirror retail store from the 1960s through the 1980s. A delicatessen occupied the building addressed 1489 West Sunset Boulevard from the 1960s through the 1980s. The westernmost parcel, addressed 1501 West Sunset Boulevard, was improved with a residence until the 1930s when it was replaced by a commercial store. The current building was constructed in 1979.*
>
> *The current owner purchased the buildings addressed 1485-1489 West Sunset Boulevard in 1984. In 1986, the current grocery store, A Grocery Warehouse, opened. The current owner purchased the westernmost building (1501 West Sunset Boulevard) recently, which had historically been occupied by various medical and dental clinics, and opened the current home goods store.*

No environmental concerns were identified with regard to the Property or vicinity:

> *The subject property is not listed on any of the researched Federal or State agency databases. No researched properties within the specified search radii were identified which are assessed to pose an environmental concern for the subject property.*

ODIC's recommendations and opinions were as follows:

> *No Recognized Environmental Conditions (RECs) were identified during the course of this Phase I Environmental Site Assessment. ODIC recommends No Further Action at this time.*

4.2 SANBORN MAP COMPANY FIRE INSURANCE MAPS

Sanborn Map Company maps were created for insurance underwriters from 1867 to present, and often contain information regarding the uses of individual structures, and the locations of fuel and/or chemical storage tanks that may have been on a particular property. In 1996, the entire Sanborn Map Company collection was acquired by Environmental Data Resources, Inc. (EDR). ODIC subcontracted with EDR to provide copies of Sanborn Map Company maps, if available, for the Property and vicinity.

ODIC reviewed Sanborn Map Company fire insurance maps supplied by EDR. A summary of observations is provided below:

Historical Sanborn Fire Insurance Maps	
YEAR	DESCRIPTION
1906	**Property**: The Property is not within the map range.
	Adjacent North: The area is not within the map range.
	Adjacent South: West Subset Boulevard is depicted, followed by undeveloped land and dwellings.
	Adjacent West: The area is not within the map range.
	Adjacent East: The area is not within the map range.
1919	**Property**: Three dwellings, a garage structure, and a commercial building labeled carpet cleaning are depicted. McDuff Street bisects the west portion of the Property.
	Adjacent North: A dwelling and undeveloped land are depicted.
	Adjacent South: The area is not within the map range.
	Adjacent West: Undeveloped land is depicted.
	Adjacent East: Undeveloped land, Portia Street, and dwellings are depicted.
1950	**Property**: A dwelling, a commercial building labeled a store, and a garage structure are depicted on the west portion of the Property. A dwelling and three commercial buildings are depicted on the central and east portions of the Property. The commercial buildings are labeled furniture and printing.
	Adjacent North: Multiple dwellings are depicted.
	Adjacent South: Multiple dwellings are depicted.
	Adjacent West: Multiple dwellings and a store building are depicted.
	Adjacent East: A multi-tenant commercial building are depicted immediately east. East of Portia Street, a dwelling and a gas station are depicted to the east and southeast.
1953	The Property and adjacent vicinity appear similar to the previous map.
1954	The south-adjacent vicinity appears similar to the previous map. The Property and adjacent vicinities to the north, west, and east are not within the map range.
1957	The Property and adjacent vicinity appear similar to the 1953 map.
1960	The Property and adjacent vicinity appear similar to the previous map.
1961	The Property and adjacent vicinity appear similar to the previous map, with the following exceptions: the commercial buildings on the east portion of the Property are labeled as stores.
1964	The south-adjacent vicinity appears similar to the previous map. The Property and adjacent vicinities to the north, west, and east are not within the map range.
1965	The south-adjacent vicinity appears similar to the previous map. The Property and adjacent vicinities to the north, west, and east are not within the map range.
1966	The Property and adjacent vicinity appear similar to the previous map, with the following exception: a detached garage structure on the west portion of the Property is no longer depicted.
1968	The Property and adjacent vicinity appear similar to the previous map.
1969	The Property and adjacent vicinity appear similar to the previous map, with the following exception: a previously noted dwelling structure on the west portion of the Property is labeled as a store.

Historical Sanborn Fire Insurance Maps	
YEAR	DESCRIPTION
1970	The Property and adjacent vicinity appear similar to the previous map.

4.3 HISTORICAL AERIAL PHOTOGRAPHS

ODIC reviewed aerial photographs supplied by the EDR Aerial Photo Decade Package. A summary of observations is provided below:

Historical Aerial Photographs	
YEAR	DESCRIPTION
1928	**Property**: Apparent dwellings are visible on the west and north/central portions of the Property. One of the current commercial buildings is visible on the east portion. McDuff Street bisects the west portion of the Property.
	Adjacent North: Apparent dwellings are depicted.
	Adjacent South: West Sunset Boulevard is visible, followed by multiple apparent dwellings.
	Adjacent West: Apparent dwellings are visible.
	Adjacent East: The current commercial building, Portia Street, and apparent dwellings are visible.
1938	The Property and adjacent vicinity appear similar to the previous photograph.
1948	**Property**: The current commercial buildings are visible on the east portion of the Property; a parking lot is centrally-located on the Property. The remainder of the Property appears similar to the previous photograph.
	Adjacent North: Apparent dwellings are visible.
	Adjacent South: Multiple apparent dwellings are visible.
	Adjacent West: Apparent dwellings are visible.
	Adjacent East: Apparent dwellings are visible. Southeast of Portia Street (east of the Property), an apparent gas station is visible).
1952	The Property and adjacent vicinity appear similar to the previous photograph.
1964	**Property**: A former detached garage structure was razed from the west portion of the Property. The Property appears otherwise similar to the previous photograph.
	Adjacent North: No significant changes are apparent.
	Adjacent South: No significant changes are apparent to the immediate south. Within the near vicinity to the southwest, an apparent gas station is visible.
	Adjacent West: No significant changes are apparent.
	Adjacent East: No significant changes are apparent to the immediate east. Within the near vicinity to the southeast, a gas station appears to have been redeveloped.
1972	The Property and adjacent vicinity appear similar to the previous photograph, with the following exception: a previously noted gas station to the southwest was razed.
1981	**Property**: The current commercial building is visible on the west portion of the Property. Also, a former dwelling appears to have been razed from the north portion of the Property. The Property appears otherwise similar to the previous photograph.
	Adjacent North: No significant changes are apparent.
	Adjacent South: Within the near vicinity to the southwest, the current commercial building is visible. Multiple former dwellings also appear to have been razed from an area to the south-southwest.
	Adjacent West: No significant changes are apparent.
	Adjacent East: No significant changes are apparent.
1989	The Property and adjacent vicinity appear similar to the previous photograph, with the following exception: the current commercial building is visible to the south, in an area that was

Historical Aerial Photographs	
YEAR	DESCRIPTION
	previously undeveloped.
1994	The Property and adjacent vicinity appear similar to the previous photograph.
2005	The Property and adjacent vicinity appear similar to the previous photograph.
2009	The Property and adjacent vicinity appear similar to the previous photograph.
2010	The Property and adjacent vicinity appear similar to the previous photograph.
2012	The Property and adjacent vicinity appear similar to the previous photograph, with the following exception: a previously noted gas station to the southeast (east of Portia Street) was razed.

4.4 LOCAL STREET DIRECTORIES / HISTORICAL CITY DIRECTORIES

ODIC reviewed Historical City Directories provided by EDR for the years spanning 1920-2014. A summary of listings is provided below:

Historical City Directories	
YEAR	LISTING
1920 – 1950	No listings
1951	Angelus Music Printng (1485 West Sunset Boulevard) Grossmann Rudi Angelus Music Printng (1485 West Sunset Boulevard) W Sunset Van Del Offset Press (1485 West Sunset Boulevard) Sunset Singer Carpet & Rug Co. For discussion of nearby properties of environmental concern, if any, refer to Sections 5.3 and 5.4.

4.5 CITY/COUNTY BUILDING DEPARTMENT, ZONING/LAND USE, PROPERTY TAX RECORDS, PROFILES

Building Department Records:

ODIC reviewed building records from the City of Los Angeles Building Department. A summary of the pertinent building records is provided below:

Building & Planning Department Records		
YEAR	DESCRIPTION	OWNER
1913	Permit (1485 West Sunset Boulevard) – New office building	James Lacy
1919	Permit (1501 West Sunset Boulevard) – New residence	C. Marie McLead

Building & Planning Department Records		
YEAR	DESCRIPTION	OWNER
1922	Permit (1485 West Sunset Boulevard) – Office building, Swiss style added to (illegible text); building use noted as shipping (illegible text) and office carpet cleaning (it is noted that carpet dry cleaning is conducted at an offsite factory)	Illegible
1923	Permit (1501 West Sunset Boulevard) - Garage	Dr. E.L. Colburns
1930	Permit (1503 West Sunset Boulevard) – New concrete building; building use noted as real restate	Mrs. Emerson
1931	Permit (1487 West Sunset Boulevard) – Mezzanine floor and various other alterations; building use noted as park garage (prior) and furniture store (after alterations)	B. Singer
1938	Permit (1489 West Sunset Boulevard) – Add store	Ben Singer
1938	Permit (1489 West Sunset Boulevard) – Wreck store building	Stay House Movers
1939	Permit (1489 West Sunset Boulevard) – New commercial building; use noted as furniture storage	Ben Singer
1939	Permit (1489 West Sunset Boulevard) – New garage structure	Ben Singer
1947	Permit (1485 West Sunset Boulevard) – Concrete block addition	Delbert Canning
1948	Certificate of occupancy (1485 West Sunset Boulevard) – One story addition, 24x39, printing	D.P. Canning
1948	Permit (1495 West Sunset Boulevard) – Relocating and of a building; excavating and seal off concrete foundation; building use noted as office	Heard Byran
1958	Permit (1487 West Sunset Boulevard) – Remodel, add partition; building use noted as retail store	M. Gerson
1959	Certificate of occupancy (1489 West Sunset Boulevard) – Bakery, converted from an existing brick commercial store building	Not provided
1959	Permit (1489 West Sunset Boulevard) – Change of occupancy survey; building use noted as grocery and bakery	Melvin Gerson
1962	Certificate of occupancy (1501 West Sunset Boulevard) – Day old bakery food products establishment converted from an existing one-story commercial store building	Florence Emerson
1974	Permit (1491 West Sunset Boulevard) – Legalize parking	Melvin Gerson
1975	Certificate of occupancy (1491 West Sunset Boulevard) – 120x80 parking lot; to legalize parking lot	Mr. Gerson
1976	Permit (1501 West Sunset Boulevard) – New commercial building; office and garage (completed in or around 1977)	Adelberto Ramos
1978	Certificate of occupancy (1501 West Sunset Boulevard) – 2-story office and attached garage	Adelberto Ramos
1986	Permit (1487 West Sunset Boulevard) – Sign (Citi Grocery Warehouse)	Mr. Cao
1989	Permit (1485 West Sunset Boulevard) – Change of use, retail store to fast food	Toan Cao Phan
1995	Permit (1485 West Sunset Boulevard) – Convert portion of existing retail building to fast food restaurant	Toan Cao Phan

Property Profile:

ODIC obtained the following Property information from select title company property profiles:

- Assessor Parcel Number(s): 5406-001-016
- Current Property Owner(s): Phan Toan C (Te) / Phan Mai K (Te) / Phan
- Lot Size: 0.0631 acres
- Building Size: 3,672 square feet
- Construction Date: 1940
- Site Use / Use Code: Stores & Offices

- Assessor Parcel Number(s): 5406-001-017
- Current Property Owner(s): Phan Toan C (Te) / Phan Mai K (Te) / Phan
- Lot Size: 0.1319 acres
- Building Size: 7,000 square feet
- Construction Date: 1922
- Site Use / Use Code: Store building

- Assessor Parcel Number(s): 5406-001-018
- Current Property Owner(s): Phan Toan C (Te) / Phan Mai K (Te) / Phan
- Lot Size: 0.1158 acres
- Building Size: 4,100 square feet
- Construction Date: 1939
- Site Use / Use Code: Store building

- Assessor Parcel Number(s): 5419-027-007
- Current Property Owner(s): Phan Toan C (Te) / Phan Mai K (Te) / Phan
- Lot Size: 0.1148 acres
- Building Size: 5,000 square feet
- Construction Date: 1979
- Site Use / Use Code: Medical building

4.6 HISTORICAL TOPOGRAPHIC MAPS

Development history of the Property and surrounding area was researched using historical 7.5 Minute USGS topographic maps provided by EDR. The following is a summary of observations:

Historical Topographic Maps	
YEAR	DESCRIPTION
1896	The Property and surrounding vicinity appear predominantly undeveloped, with the exception of a sparse number of streets and small structures depicted throughout the near vicinity. Additionally, railroad tracks are visible to the adjacent south (where West Sunset Boulevard is currently located). Urban development is depicted within the general vicinity to the south.
1900	The Property and adjacent vicinity appear similar to the previous map.
1901	The Property and adjacent vicinity appear similar to the previous map.
1902	The Property and adjacent vicinity appear similar to the previous map.
1920	Multiple small structures are depicted within the area of the Property. Additional small structures are depicted throughout the adjacent and near vicinity. West Sunset Boulevard is depicted to the adjacent south; the previously noted railroad tracks are not depicted.

Historical Topographic Maps	
YEAR	DESCRIPTION
1928	One or more commercial-type buildings are depicted on the east portion of the Property. One or more small structures are also depicted on the north and/or west portions of the Property. Additional commercial and other small structures are depicted throughout the adjacent and near vicinity.
1953	The Property and adjacent vicinity are depicted as generally urban-developed.
1966	The Property and adjacent vicinity appear similar to the previous map.
1972	The Property and adjacent vicinity appear similar to the previous map.
1981	The Property and adjacent vicinity appear similar to the previous map.
1994	The Property and adjacent vicinity appear similar to the previous map.

4.7 OIL & GAS MAPS

ODIC reviewed California Department of Conservation, Division of Oil, Gas & Geothermal Resources (DOGGR) maps for the Property and immediate vicinity via the DOGGR Online Mapping System (DOMS), but found no active or abandoned oil and/or gas wells on the Property or in the immediate vicinity.

Source: http://maps.conservation.ca.gov/doggr/#close

4.8 OTHER HISTORICAL RECORDS

This category includes, but is not limited to: miscellaneous maps, newspaper archives, internet sites, community organizations, local libraries, historical societies, current *owners* or *occupants* of neighboring properties, or records in the files and/or personal knowledge of the *Property owner* and/or *occupants*.

An internet search of the Property address was conducted to identify additional former Property occupants and/or uses that may not have been identified via other sources. No such occupants and/or uses were identified.

5.0 STANDARD ENVIRONMENTAL RECORDS RESEARCH

5.1 PROCEDURE

The most current databases sources maintained by state and federal offices were provided by governmental record search database suppliers, such as Environmental Data Resources (EDR). For definitions of database acronyms, review the database report in Appendix C and/or refer to ASTM Standard Practice E1527-13, Sections 3.3 and 8.2.

Database sources maintained by local offices were obtained via records requests. Databases were searched for properties with reported environmental listings within distances specified by ASTM Standard Practice E1527-13, either by using geocoding information that identified the coordinates of the properties in the databases or by checking the street addresses of practically reviewable non-geocoded "orphan" properties within the same zip code. The database report is included as an appendix to this *Report*. The database report may identify certain "orphan sites" which are those facilities that could not be mapped or geocoded due to inadequate address information. ODIC cannot be held liable for not correctly locating these orphan sites to determine their impact to the Property.

ASTM Standard Practice E1527-13 Sections 3.3 and 8.2 use terminology such as Leaking Storage Tank and Registered Storage Tank to refer to both Leaking Underground/Aboveground Storage Tanks and Underground/Aboveground Storage Tanks. For the purposes of this assessment, ODIC has used state-specific terminology to refer to Leaking Storage Tanks and/or other Registered Storage Tanks as generally defined by the state in which the Property is located.

5.2 PROPERTY LISTING(S)

FEDERAL AGENCY LISTINGS		STATE AGENCY LISTINGS	
DATABASE	**PROPERTY LISTED**	**DATABASE**	**PROPERTY LISTED**
NPL	No	State/Tribal Equivalent NPL	No
De-listed NPL	No	State/Tribal Equivalent CERCLIS	No
CERCLIS/SEMS	No	State/Tribal SWLF	No

Other Federal List	No	Other State List	No

LOCAL ENVIRONMENTAL AGENCY LISTINGS	
AGENCY	**RECORDS ON FILE FOR THE PROPERTY**
State Environmental Agency(ies) with Local/Regional Offices	
California State Water Resources Control Board (SWRCB) – GeoTracker database	No
Los Angeles Regional Water Quality Control Board (LA-RWQCB)	No
CA Department of Toxic Substances Control (DTSC) – ENVIROSTOR database	No
DTSC – Hazardous Waste Tracking System database	No
DTSC Local Office	Agency Response Pending
County/City Environmental Agency(ies)	
County of Los Angeles Department of Public Works (LADPW)	No
City of Los Angeles Fire Department (LAFD)	Agency Response Pending
County of Los Angeles Fire Department / Public Health Investigation (PHI)	Agency Response Pending
City of Los Angeles Sanitation District	Agency Response Pending
Air Quality Management District	
South Coast Air Quality Management District (SCAQMD)	No
See below for a discussion of agency records, if any, for the Property.	

Department of Toxic Substances Control (DTSC):

ODIC requested public records pertaining to the Property from the DTSC, a local oversight agency for hazardous waste and other environmental matters. However, a response is pending. If information is subsequently received from this agency which alters the conclusions of this assessment, a report addendum will be provided to the *Client*. However, based on available Property history information, it is unlikely that information will be provided by this agency that alters the conclusions of this report.

City of Los Angeles Fire Department:

ODIC requested public records pertaining to the Property from the City of Los Angeles Fire Department, a local oversight agency for hazardous materials, wastes and/or underground storage tanks. However, a response is pending. If information is subsequently received from this agency which alters the conclusions of this assessment, a report addendum will be provided to the *Client*. However, based on available Property history information, it is unlikely that information will be provided by this agency that alters the conclusions of this report.

County of Los Angeles Fire Department / Public Health Investigation:

ODIC requested public records pertaining to the Property from the County of Los Angeles Fire Department / Public Health Investigation, an additional local oversight agency for hazardous materials, wastes and/or underground storage tanks. However, a response is pending. If information is subsequently received from this agency which alters the conclusions of this assessment, a report addendum will be provided to the *Client*. However, based on available Property history information, it is unlikely that information will be provided by this agency that alters the conclusions of this report.

City of Los Angeles Sanitation District:

ODIC requested public records pertaining to the Property from the City of Los Angeles Sanitation District, an additional local oversight agency for wastewater and solid waste management. However, a response is pending for additional historical addresses of the Property. If information is subsequently received from this agency which alters the conclusions of this assessment, a report addendum will be provided to the *Client*. However, based on available Property history information, it is unlikely that information will be provided by this agency that alters the conclusions of this report.

5.3 SURROUNDING SITES: FEDERAL AGENCY LISTINGS

Other State List	Adjoining Sites	0

State/Tribal Equivalent NPL: RESPONSE:

LISTING	ADDRESS	DISTANCE
Los Angeles Naval & Marine Corps Res. Cen.	1700 Stadium Way	SE 1/2 - 1

The above RESPONSE site is located approximately 3,500 feet southeast of the Property at its nearest point. Based on its horizontal distance from the Property, this site is not assessed to pose an environmental risk to the Property.

State/Tribal Equivalent CERCLIS - ENVIROSTOR:

LISTING	ADDRESS	DISTANCE
Regency Cleaners	1411 Echo Park Ave	NW 1/8 - 1/4

Regency Cleaners is located approximately 750 feet northwest of the Property. The following information was obtained from the DTSC's ENVIROSTOR database:

> *The Site is currently a shopping center occupied by various retail businesses, including a dry cleaner that has been operating at the site since '1987. Prior to 1987, a gasoline service station reportedly operated at the site. Historically, the dry cleaning machine at the dry cleaner used PCE. In the beginning of 2013, the dry cleaner machinery was reportedly removed from the site and PCE use was terminated.*
>
> *Under the LARWQCB oversight, 75 tons of PCE impacted shallow soil was excavated to depths of 2 to 3 feet at on and near the dry cleaner in 2003. Confirmation soil samples collected following the excavation showed residual PCE impact, at concentrations below the Los Angeles Regional Water Quality Board's (Water Board) soil screening levels (SSLs) as well as petroleum*

hydrocarbon impact from the former gasoline station. The excavated area was backfilled with clean fill material and resurfaced. The LARWQCB closed the case on April 5, 2005.

Under the oversight of DTSC, The Reynolds Group (TRG) conducted two soil gas investifations, the first on December 7, 2012, and on February 18, 20'13. PCE was detected up to 42.5 micrograms per liter (ug/l).

Based on a human health risk assessment, the site was deemed suitable for commercial/industrial uses. A land Use covenant (LUC) was recorded with the county of Los Angeles restricting the use of the first floor to only commercial/industrial uses.

Based on the available information, the Regency Cleaners site is not assessed to pose an environmental risk to the Property.

Source: http://www.envirostor.dtsc.ca.gov/public/profile_report.asp?global_id=60001767

An additional ENVIROSTOR site (Northrop Grumman Corp.) was erroneously listed as being within a 1/4 to 1/2 miles distance from the Property. However, it is located in El Segundo and is not assessed to pose an environmental risk to the Property based on its distance.

State/Tribal LST (Leaking Storage Tank) – LUST (Leaking Underground Storage Tank):

Listed below are the five nearest LUST sites to the Property. For a complete listing, refer to the EDR Radius Map Report appended to this report.

LISTING	ADDRESS	DISTANCE
Chevron #3-0581	1516 W Sunset Blvd	SSW 0 - 1/8
ARCO #81460	1467 W Sunset Blvd	ESE 0 - 1/8
Stanmor Enterprise	1700 Sunset Blvd	WNW 1/8 - 1/4
Courier Express, Inc.	1533 Echo Park Ave	N 1/4 - 1/2
Tosco - 76 Station #0779	1340 Glendale Blvd	NW 1/4 - 1/2

Chevron #3-0581, 1516 W. Sunset Blvd: This closed-case LUST site is located immediately south-southwest of the west portion of the Property parcel addressed 1501 W. Sunset Blvd. ODIC researched this site via the Geotracker database because of its close proximity to the Property. The LUST case was opened in 1994 due to impacted soil and groundwater as the result of a gasoline release. Case closure was granted in 1997 or 1998, indicating that identified contamination was mitigated to a degree that the applicable governing agency no longer believed this site posed an apparent threat to the subsurface environment of the surrounding vicinity. As such, this site is not assessed to pose an environmental risk to the Property.

Sources:
http://geotracker.waterboards.ca.gov/profile_report?global_id=T0603700726
http://geotracker.waterboards.ca.gov/profile_report?global_id=SL0002045000

ARCO #81460, 1467 W Sunset Blvd: This closed-case LUST site is located approximately 50 feet east-southeast of the east portion of the Property parcel that extends to Portia Street. ODIC researched this site via the Geotracker database because of its close proximity to the Property. The LUST case was opened in 1999 due to impacted soil and groundwater as the result of a gasoline release. Case closure was granted in 2002, indicating that identified contamination was mitigated to a degree that the applicable governing agency no longer believed this site posed an apparent threat to the subsurface environment of the surrounding vicinity. As such, this site is not assessed to pose an environmental risk to the Property.

Source: http://geotracker.waterboards.ca.gov/profile_report?global_id=T0603700732

The remaining LUST sites identified within the specified search distance are not assessed to pose an environmental risk to the Property based on their respective horizontal distances from the Property.

State/Tribal Voluntary Cleanup Sites (VCP):

LISTING	ADDRESS	DISTANCE
Regency Cleaners	1411 Echo Park Ave	NW 1/8 - 1/4

Regency Cleaners is discussed in the ENVIROSTOR section, above.

State/Tribal List – SLIC (Spills, Leaks, Investigations, and Cleanups):

LISTING	ADDRESS	DISTANCE
Former Chevron Station	1508-1522 W Sunset Blvd	SSW 0 - 1/8
Holloway Dry Cleaners	1157 Echo Park Blvd	WNW 1/8 - 1/4
Regency Cleaners	1411 Echo Park Ave	NW 1/8 - 1/4

Former Chevron Station, 1508-1522 W Sunset Blvd: This site (also known as Chevron #3-0581 addressed 1516 W. Sunset Blvd.) is discussed in the LUST section, above.

Holloway Dry Cleaners, 1157 Echo Park Blvd: This open-case SLIC site is located approximately 700 feet west of the west portion of the Property parcel addressed 1501 W. Sunset Blvd. ODIC researched this site via the Geotracker database because of its close proximity to the Property. The SLIC case was opened in 1988 due to impacted soil and groundwater as the result of a release of chlorinated hydrocarbons including tetrachloroethylene (PCE) and trichloroethylene (TCE). Based on fourth quarter 2016 groundwater monitoring data, the groundwater flow direction at this site is toward the southwest (away from the Property). Concentrations of PCE, TCE, and cis-1,2-DCE extend south-southwest from the site, but do not extend offsite in the direction of the Property. Based on available information, the Holloway Dry Cleaners site is not assessed to pose an environmental risk to the Property.

Regency Cleaners, 1411 Echo Park Ave: This site is discussed in the ENVIROSTOR section, above.

5.5 VAPOR ENCROACHMENT CONDITION

ODIC performed this Phase I ESA of the Property in conformance with the scope and limitations of ASTM Standard Practice E1527-13. It should be noted that ASTM Standard Practice E1527-13 does not necessarily comply with ASTM Standard Practice E2600-15 "Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions." For assessment of potential "vapor encroachment conditions" (VECs) and to determine if a "vapor intrusion condition" (VIC) exists on-site, additional investigation beyond ASTM Practice E1527-13 is required.

For the purposes of ASTM Standard Practice E1527-13, "migrate" and "migration" refers to the movement of *hazardous substances* or *petroleum products* in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface. Vapor migration in the subsurface is described in ASTM Standard Practice E2600-15; however, nothing in this practice (ASTM Standard Practice E1527-13) should be construed to require application of the ASTM Standard Practice E2600-15 to achieve compliance with all appropriate inquiries.

ODIC did not identify any indication that a significant release of chemicals of concern (COCs) that has occurred from historical/current use of the Property or nearby sites listed in the Standard Environmental Database discussed in Sections 5.3 and 5.4 of this *Report*, currently resulting in an unacceptable or adverse risk of vapor migration at the Property.

6.0 USER PROVIDED INFORMATION

6.1 USER PROVIDED INFORMATION

The United States Environmental Protection Agency (USEPA) All Appropriate Inquiry (AAI) and ASTM Standard Practice E1527-13 Phase I Standards require that the *Report User* conduct independent research and consider certain information before purchasing a property.

The purpose of this section is to describe tasks to be performed by the *User*. The "All Appropriate Inquiries" Final Rule (40 CFR Part 312) requires that these tasks be performed by or on behalf of a party seeking to qualify for an *landowner liability protections (LLP)* to CERCLA liability. While such information is not required to be provided to the *environmental professional*, the *environmental professional* shall request that the *User* provide the results of these tasks as such information can assist the *environmental professional* in identifying Recognized Environmental Conditions.

Per ASTM Standard Practice E1527-13, the "*User*" is defined as follows:

> *User—the party seeking to use Practice E 1527-13 to complete an environmental site assessment of the property. A User may include, without limitation, a potential purchaser of property, a potential tenant of property, an owner of property, a lender, or a property manager.*

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*"), the *User* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. These inquiries must also be conducted by EPA Brownfield Assessment and Characterization grantees. The *User* should provide the following information to the *environmental professional*. Failure to conduct these inquiries could result in a determination that "*all appropriate inquiries*" is not complete.

USER/CUSTOMER QUESTIONNAIRE	
QUESTION	**USER/CUSTOMER TO ANSWER**
(1.) Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25). *Reasonably Ascertainable Title and Judicial Records for Environmental Liens and Activity and Use Limitations*. Are you aware of any environmental cleanup liens against the *Property* that are filed or recorded under federal, tribal, state or local law?	The *User* has not informed ODIC of any knowledge of cleanup liens filed or recorded against the Property. An environmental cleanup lien/AUL search is not required from ODIC as part of this Phase I ESA.

(2.) Activity and land use limitations (AULs) that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26). *Reasonably Ascertainable Title and Judicial Records for Environmental Liens and Activity and Use Limitations*. Are you aware of any AULs, such as *engineering controls*, land use restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?	The *User* has not informed ODIC of any knowledge of activity or land use limitations associated with the Property. An environmental cleanup lien/AUL search is not required from ODIC as part of this Phase I ESA.
(3.) Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28). As the *User* of this *ESA* do you have any specialized knowledge or experience related to the *Property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *Property* or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?	The *User* has not informed ODIC of any specialized knowledge or experience related to the Property or nearby properties.
(4.) Relationship of the purchase price to the fair market value of the *Property* if it were not contaminated (40 CFR 312.29). Does the purchase price being paid for this *Property* reasonably reflect the fair market value of the *Property*? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *Property*?	The *User* has not informed ODIC of any information pertaining to the purchase price with respect to the fair market value of the Property.
(5.) Commonly known or *reasonably ascertainable* information about the *Property* (40 CFR 312.30). Are you aware of commonly known or *reasonably ascertainable* information about the *Property* that would help the *Environmental Professional(EP)* to identify conditions indicative of releases or threatened releases? For example, as *User*, (a.) Do you know the past uses of the *Property*? (b.) Do you know of specific chemicals that are present or once were present at the *Property*? (c.) Do you know of spills or other chemical releases that have taken place at the *Property*? (d.) Do you know of any environmental cleanups that have taken place at the *Property*?	The *User* has not informed ODIC of any commonly known or reasonably ascertainable information about the Property that would identify conditions indicative of releases or threatened releases, other than as described in Section 6.3 (Interviews), if applicable.

(6.) The degree of obviousness of the presence of likely presence of contamination at the *Property*, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31). As the *User* of this *ESA*, based on your knowledge and experience related to the *Property* are there any *obvious* indicators that point to the presence or likely presence of contamination at the *Property*?	The *User* has not informed ODIC of any obvious indicators that point to the presence or likely presence of contamination at the Property, other than as described in Section 6.3 (Interviews), if applicable.

6.2 PRELIMINARY TITLE REPORT OR LAND TITLE RECORDS

No Preliminary Title Reports, recorded Land Title Records, or Historical Chain of Title was reviewed during this ESA. ODIC's scope of investigation as well as the contractual agreement between ODIC and the Client does not include obtaining and/or reviewing a Preliminary Title Reports, recorded Land Title Records, or Historical Chain of Title.

6.3 INTERVIEWS

Interview with Current Property Owner's Representative			
	INTERVIEW DETAILS		
Name	Ms. Catherine Phan		
Business Title	Not provided		
Name of Firm	Not provided		
Contact Information	213-453-7465		
Property Purchase Date	Ms. Phan stated that her parents purchased the Property in the mid-1980s.		
Purpose of this Environmental Assessment	Property Sale	Refinance	Other
	X		
Summary	Ms. Phan stated that her parents have owned the Property since the mid-1980s. She stated that business operations conducted at the Property buildings have included a grocery store, a home goods store, a take-out restaurant, and office use. Ms. Phan was not aware of any historical uses of the Property beyond those documented in ODIC's 2014 Phase I Environmental Site Assessment of the Property, and she was not aware of any environmental concerns on or around the Property.		

Interview with Additional Current Property Owner's Representative			
	INTERVIEW DETAILS		
Name	Mr. Geoff Mullen		
Business Title	Associate		
Name of Firm	CBRE		
Contact Information	818-907-4631		
Purpose of this Environmental Assessment	Property Sale	Refinance	Other
	X		

Summary	The information provided by Mr. Mullen was commensurate with that provide by Ms. Phan, above. Mr. Mullen was not aware of any environmental concerns on or around the Property.

7.0 CONCLUSIONS

ODIC Environmental (ODIC) performed a Phase I Environmental Site Assessment of the Property in conformance with the scope and limitations of ASTM Standard Practice E1527-13. ASTM Standard Practice E1527-13 defines a *Recognized Environmental Condition (REC)* as the presence or likely presence of any *hazardous substances* or *petroleum products* in, on, or at a *Property*: (*1*) due to *release* to the *environment*; (*2*) under conditions indicative of a *release* to the *environment*; or (*3*) under conditions that pose a *material threat* of a future *release* to the *environment*. Conditions determined to be *de minimis* generally do not present a threat to human health or the *environment* and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* conditions are not *Recognized Environmental Conditions*.

A *Historical Recognized Environmental Condition (HREC)* is *a* past *release* of any *hazardous substances* or *petroleum products* that has occurred in connection with the *Property* and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the *Property* to any required controls (for example, *Property use restrictions*, *activity and use limitations*, *institutional controls*, or *engineering controls*).

A C*ontrolled Recognized Environmental Condition (CREC)* is a *Recognized Environmental Condition* resulting from a past *release* of *hazardous substances* or *petroleum products* that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with *hazardous substances* or *petroleum products* allowed to remain in place subject to the implementation of required controls (for example, *Property* use restrictions, *activity and use limitations*, *institutional controls*, or *engineering controls*).

Conclusions and Findings
ODIC performed a Phase I Environmental Site Assessment of the Property in conformance with the scope and limitations of ASTM Standard Practice E1527-13. This environmental assessment has revealed the following in connection with the Property: REC identified: ☐ Yes ☒ No HREC identified: ☐ Yes ☒ No CREC identified: ☐ Yes ☒ No Significant data gap identified: ☐ Yes ☒ No
Refer to Section 8.0, Recommendations and Opinions, for further details.

8.0 RECOMMENDATIONS AND OPINIONS

ODIC performed a Phase I Environmental Site Assessment of the Property in conformance with the scope and limitations of ASTM Standard Practice E1527-13.

This environmental assessment has revealed no Recognized Environmental Conditions (RECs), Controlled Recognized Environmental Conditions (CRECs), or Historical Recognized Environmental Conditions (HRECs) in connection with the Property. ODIC recommends No Further Investigation at this time.

9.0 REFERENCES

During the preparation of this *Report*, a number of sources were contacted, individuals were interviewed, and various federal, state, county or local municipal agencies were consulted. Documentation applicable to the Property in those departments and agencies was requested and reviewed when and where reasonably ascertainable, as detailed in ASTM Standard Practice E1527-13. Individuals listed without phone numbers were contacted in person or by e-mail. Reference sources for site-specific information, hydrogeologic setting, technical data, historical research data, environmental reports and other records used are identified throughout this *Report* in corresponding sections. Any additional reference sources not cited in each applicable section of this *Report*, if applicable, are disclosed in this section.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or

dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 09/12/2016 has revealed that there are 5 RCRA-SQG sites within approximately 0.25 miles of the target property.

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 09/12/2016 has revealed that there is 1 RCRA-CESQG site within approximately 0.25 miles of the target property.

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to,

identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 08/01/2016 has revealed that there are 12 ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there is 1 UST site within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 9 EDR Hist Auto

sites within approximately 0.125 miles of the target property.

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there are 9 EDR Hist Cleaner sites within approximately 0.125 miles of the target property.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HOLLYWAY CLEANERS (Continued) **1000293798**

Case Type:	Cleanup Program Site
Case Worker:	BA
Local Agency:	Not reported
RB Case Number:	0075
File Location:	Regional Board
Potential Media Affected:	Aquifer used for drinking water supply, Soil, Soil Vapor
Potential Contaminants of Concern:	Other Chlorinated Hydrocarbons, Tetrachloroethylene (PCE), Trichloroethylene (TCE)
Site History:	The site is a three-story building constructed in approximately 1915. Hollyway Cleaners began operating in one of the units of the building in approximately 1941 and has been in operation under successive owners since then. Site investigation conducted in 1988 for property transaction indicated that the soil and groundwater beneath the site were contaminated with perchloroethylene (PCE), trichlorothene (TCE) and other volatile organic compounds (VOCs) as a result of release(s) from dry cleaning operations. Subsequent subsurface investigations involving soil vapor survey, soil and groundwater sampling and installation of groundwater monitoring wells confirmed the contamination of the soil, soil vapor and groundwater beneath the site. Groundwater monitoring began in 1998 and continued through 1999. However, it was discontinued 2000. A soil vapor extraction (SVE) system was installed at the site in approximately 1994. The system operated intermittently and operating parameters are unknown. From 2000 to 2001, bench-scale testing was conducted on soil and groundwater samples for bioremediation. No pilot test or full scale implementation of the proposed bioremediation was carried out. On December 21, 2011, the Regional Board issued a Cleanup and Abatement Order (CAO) to all responsible parties to complete site assessment and delineation of extent of contamination and to clean up the site. On July 26, 2013, the Regional Board issued an Amendment to Cleanup and Abatement Order No. R4-2011-0183. Site assessment and groundwater monitoring are underway at the site.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Area Name:	PROJECT WIDE
Completed Sub Area Name:	Not reported
Completed Document Type:	Preliminary Endangerment Assessment Report
Completed Date:	01/18/2005
Comments:	The SI included Geophysical survey; soil sampling and analysis; groundwater sampling and analysis; assessing the nature and extent of contamination; assessing the fate and transport of contaminants and assessing potential risk to human health. Based on the results, it is recommended that the site no longer considered a CERCLA IR site, and should fall under State of California UST program. DTSC concurs with this recommendation.

Local Agency:	DEPARTMENT OF TOXIC SUBSTANCES CONTROL
RB Case Number:	1033
LOC Case Number:	300784
File Location:	Regional Board
Potential Media Affect:	Aquifer used for drinking water supply, Soil
EDR Link ID:	T0603714859
Potential Contaminants of Concern:	Benzene, Gasoline
Site History:	The Installation Restoration (IR) Site 1 at Naval and Marine Corps Reserve Center - Los Angeles (NMCRC-LA) consists of a former service station and vehicle lube rack area. The site located on approximately six acres of land, about 1 mile northeast of downtown Los Angeles, and is currently used by the City of Los Angeles Fire Department for training purpose. The former gasoline UST and the presence of several drums of unknown waste at the lube rack are potential historical sources of contamination at the site. Contaminated subsurface soils and groundwater below the area of concern are potential current sources of contamination. Type of contaminants identified in soil and groundwater consisted primarily of petroleum hydrocarbons in gasoline and diesel ranges. Analytical results from site investigations identified subsurface soils in the 15 to 25 feet below ground surface (bgs) depths as the soil strata of greatest contamination. Depth to water is approximately 30 feet bgs. The risk to human health from exposure to soil and groundwater is below the level of concern. Currently there is no drinking water wells on the property or within 1-mile radius in the area. The nearest well is located about 3 miles north of the site, which is upgradient to the source area. As of April 2007, groundwater data collected from the site show steady decrease trends and the plume has contained on site. Of the volatile organic compounds detected in groundwater, only 1,2-dichloroethane exceeded the screening level of 0.5 micrograms per liter (ug/l). Benzene concentration has decreased close to its cleanup goal of 1 ug/l.

Background Info:	The Naval and Marine Corps Reserve Center, Los Angeles (NMCRC-LA) consists of approximately 6 acres of land, approximately 1 mile northeast of downtown Los Angeles. This site is a closed reserve center where Naval or Marine Corps activities are no longer cond ucted. NMCRC-LA was constructed from 1938 to 1940 by the Works Progress Administration and was commissioned in 1940 to provide a dministrative, training, and logistics support to reserve units. The facility has one Installation Restoration site, identified as Site 1, the former Service Station and Vehicle Lube Rack. The former service Station was built in 1943 and was used for fuelin g vehicles on site. The aboveground portion of the station has be en removed. Adjacent to the former Service Station, the Vehicle L ube Rack was used for vehicle maintenance and drained directly to a waste of oil underground storage tank(UST). Between 1987 to 19 89, hazardous substances (including used oil, solvents, hydraulic , fluid, and other new and used vehicle maintenance products) wer e stored in 55-gallon drums on the Vehicl Lube Rack. In Novembe r 1994, the waste oil UST was removed in 1994 under supervision o f the Los Angeles Fire Department. Soil with detected levels of total recoverable petroleum hydrocarbons was excavated and dispos ed off site. In 1995, an Environmental Baseline Study (EBS) was conducted. The EBS identified the Vehicle Lube Rack and the form er Service Station gasoline UST as areas requiring further invest igation. In 1996, a subsurface soil investigation conducted for Site 1 indicated the presence of gasoline-range hydrocarbons, be nzene, toluene, ethylbenzene, total xylenes, and 1,2-dichloroetha ne.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 08/05/2016

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 08/05/2016

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 09/14/2016

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 10/10/2016

Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 09/12/2016

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Data Release Frequency: Varies

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006
Date Data Arrived at EDR: 03/01/2007

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-l ke material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water board?s review found that more than one-third of the region?s active disposal pits are operating without permission.

ABANDONED MINES: Abandoned Mines
An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

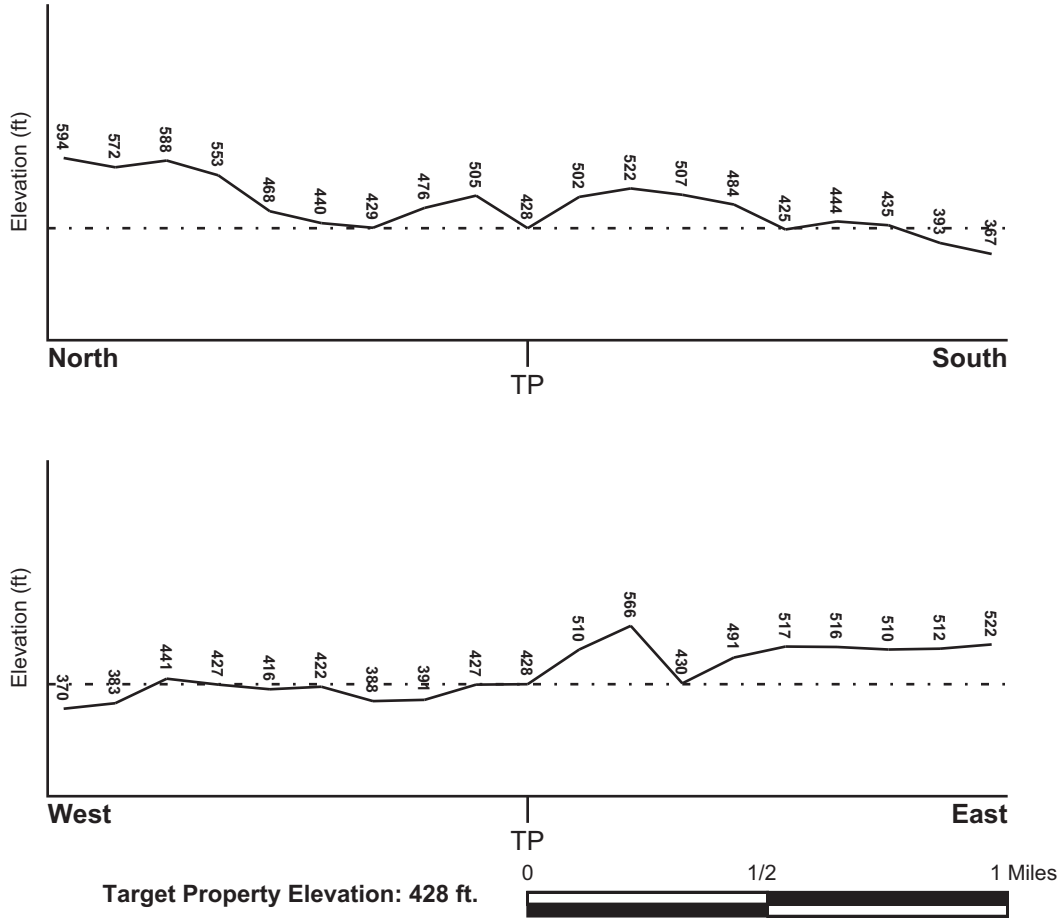

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

HOLLYWOOD	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era:	Cenozoic
System:	Tertiary
Series:	Miocene
Code:	Tm *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name:	HAMBRIGHT
Soil Surface Texture:	gravelly - loam
Hydrologic Group:	Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.
Soil Drainage Class:	Well drained. Soils have intermediate water holding capacity. Depth to water table is more than 6 feet.

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel:	MODERATE
Depth to Bedrock Min:	> 10 inches
Depth to Bedrock Max:	> 20 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)
1	0 inches	7 inches	gravelly - loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel	Max: 2.00 Min: 0.60	Max: 7.30 Min: 6.10
2	7 inches	16 inches	very gravelly - loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Gravels, Gravels with fines, Silty Gravel. COARSE-GRAINED SOILS, Gravels, Gravels with fines, Clayey Gravel.	Max: 2.00 Min: 0.60	Max: 7.30 Min: 6.10
3	16 inches	20 inches	unweathered bedrock	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: loam
silty clay loam
shaly - clay loam
sandy loam
clay
loamy sand
clay loam

Surficial Soil Types: loam
silty clay loam
shaly - clay loam
sandy loam
clay
loamy sand
clay loam

Shallow Soil Types: silty clay

Deeper Soil Types: weathered bedrock
clay loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish & Game
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Be kman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Department of Conservation
Telephone: 916-323-1779
Oil and Gas well locations in the state.

RADON

State Database: CA Radon
Source: Department of Health Services
Telephone: 916-324-2208
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by ODIC Environmental were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EDR Aerial Photo Decade Package

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 332 feet of the target property.

A summary of the information obtained is provided in the text of this report.
