Comments for Public Posting: I am a house owner and it is INSANE the amount my bills have gone up over the past 4 years for electricity, water, and sanitation!! This is horrific and ridiculous. My utility usage has not at all changed in regards to more usage. In fact, I have penny pinched every hour on the hour to reduce and restrict usage. And even in the many months that I do cut back significantly, the bill is ASTRONOMICALLY more than the previous year when I had used more!! I even went as far as killing all more front lawn grass to replace with water efficient plants. My water bill once I did this? WENT UP! Does that make any sense??? This is a scam and the utility companies are taking advantage of homeowners.
