Council File No: 23-0623-S1

Comments for Public Posting: To the Los Angeles City Council Planning and Land Use Management Committee including Chair Harris-Dawson, Vice Chair Lee, and Councilmembers Yaroslavsky, Padilla and Hutt: I OPPOSE Executive Directive 1 (ED1) (Council File 23-0623) as presently drafted and urge you to strengthen it to prevent bad actor developers from exploiting a well-intentioned directive, to their less than civic minded profiteering. Next door to me is a soon to be completed VRBO mini-mansion with an ADU. The accessory dwelling, built under the guise of providing affordable housing, is simply a pool house. Soon future revelers will swill tequila, smoke dab and party through the night. No under-served families or financially struggling seniors will find housing there. This example is a cautionary tale for what might happen if ED1 is not tempered to thwart opportunists. The fair-minded intentions of Mayor Bass and others seeking to alleviate housing woes in Los Angeles are commendable however the most greedy of our species are already distorting this to their advantage.
