**Comments for Public Posting:** As your constituent and as a 15-year resident of Miracle Mile, I urge you to add guardrails to ED 1 that make way for affordable housing but also protect LA's historic neighborhoods. I am a strong supporter of both affordable housing and historic preservation, and I believe the two are not in conflict. In fact, older renters of all ethnic groups and races, who may still be covered by rent control, are the first to suffer when dislodged from their long-time homes. Please take this into account in voting for modifications to ED1. Thank you.
