Comments for Public Posting: There is plenty of zoning in the City of Los Angeles for the increased housing density required by the State without penetrating R-1 Zones, HPOZs and LAHCMs. Further, allowing all faith based organizations to up zone their properties to build "100% Affordable" multi story buildings will seriously impact single family neighborhoods, HPOZs, and even HCM. Please stop trying to eradicate stable single family neighborhoods, ADUs can meet that need in those neighborhoods and there is plenty of buildable lots on the commercial corridors surround these neighborhoods that is on transit lines.
