**Comments for Public Posting:** NOTE: Please clarify that signs for removal are for bike paths and not trails. There is an critical distinction. Recently, TRAIL signs have been spray painted/defaced/illegally removed in Hansen Dam and Griffith Park where trails are restricted to feet (horses and hikers). Therefore, join us in support -- join equestrians and hikers -- and clarify that the signs directed to TRAIL uses will not be removed in Hansen Dam, Griffith Park and other parks. Well-meaning staff could mix this up. Let's protect all--we have a right to safe use of these trails. Just as bicyclists have a right to safe bike paths. "2. INSTRUCT the LADOT, with the assistance of the Department of Recreation and Parks and any other Department that has responsibility for any bike path in the City, be instructed to remove, by June 30, 2023, any signs that purport to exclude electric bicycles from any bike path."
