Comments for Public Posting: Hiring one person to handle an entire city's drug abuse epidemic is one of the most obvious signs of a severe lack of concern. This program does not cost the public anything, it is using allocated money from a Trust, The Opioids Settlement Trust Fund is estimated to receive between five to six million dollars annually until 2032 and two to three million dollars through 2038. The LA Greens support drug treatment programs which have shown to reduce drug abuse in impacted communities when the programs supported.
