Comments for Public Posting: A public comment in support of the roundabout has been placed on motion 23-0706 regarding parking meters. This comment should instead be attached to this motion 23-0705. There are a multitude of motions related to the neighborhood around the Hollywood sign with overlapping impacts. The comments and collective impact should be considered holistically. A roundabout is the most straightforward solution to stop the road blocking traffic when tourists realize they cannot get closer to the sign and missed their opportunity to park on Canyon Lake drive. With the current road design they are instead stoping in moving traffic, making dangerous turn maneuvers that have knocked down barriers, illegally parking on the land meant for pedestrian view points, and illegally parking in the opposite direction of traffic. LADOT guidance / enforcement of parking and moving violations is critical in this high tourist area who do not know the local rules of the road.
