Comments for Public Posting: I moved back into my home at 6268 Mulholland Hwy 18 months ago after being away for many years and I am appalled at the number of tourists invading Hollywoodland. It seems the city values tourism more than the residents who pay steep property taxes every year. Item # 23-0706 which considers parking meters at the dog park will only add to the problem. Cars would still block oncoming and passing traffic like they do now waiting for other cars to leave their spots. We need more traffic enforcement officers who can not only ticket cars parking the wrong way but moving violations. On the weekends it is total gridlock and really not fair to the residents who live in the area who are just trying to get to the Valley side. I am directly under the Hollywood sign and many times my gated driveway is blocked by people turning around even though our sign prohibits it. The NO PEDESTRIAN signs on Mulholland Hwy are useless. It is a very dangerous situation with people inter mingling with cars It's a recipe for disaster. Those signs should be enforced and people should be ticketed which will also provide revenue for the city. What about when emergency vehicles have to try to get through, this could be life or death in certain situations The city should provide funding for more DOT officers. Item# 23-0721 I think the installations of sensors to monitor and count the amount of cars and pedestrians coming to the area everyday is a good idea then there will be no guesswork as to how overwhelmed the area is.
