Council File No: 23-0914

Comments for Public Posting: The Motion should be passed by the City Council. Allowing people to live in RVs in neighborhoods, around schools, and under critical City infrastructure is inhumane to those living in the RVs and to residents of the affected areas. There is no reason why the City should allow people to live in RVs, while creating biological and other hazards, with no enforcement of parking and other laws. Recently the RVs in my neighborhood were moved after being there for several years, and this has greatly increased the live-ability of my neighborhood. I can only hope that the RVs remain away for good and that other areas of the City receive similar attention. It's time that the City do its job and stop turning a blind eye to this crisis, especially given the amount of taxes citizens contribute to deal with these issues.
