Comments for Public Posting: Please stop the removal of RV's and vehicles in which houseless persons live. Unless you are able to relocate these vehicles and their inhabitants to safe RV parks with appropriate services, these people should not be moved from where they are living. These are their homes and neighborhoods. To move them away is harmful to them and their communities. I feed and talk to these community members often; they need our support and help, not punishment for their situations.

Comments for Public Posting: There needs to be immediate action taken to rid our parks , schools and other sensitive areas including freeway underpasses of RV's and other large vehicles. Our children and youth should be able to attend our neighborhood parks without having to be subjected to the activities that are taking place by the RV dwellers. There are laws that are not being enforced since March of 2020. Please provide a safe environment for our children and youth.
