Comments for Public Posting: This building is is an important example of postwar commercial development on San Vicente Boulevard. Its distinctive courtyard layout, and history as home to Dutton's Bookstore for over two decades, makes this a valued community landmark. Please do not allow it to be demolished.

Comments for Public Posting: The Barry Building has INTENTIONALLY declined in order to secure a demolition order. The Brentwood Community deserves to have its history retained. Modern post war building was central to the growth of Brentwood. The major construction ongoing on San Vicente has eliminated business buildings and changed areas beyond recognition. I hope that the Council will include opposing the demolition of the Barry Building. The post war era was the HEART of the growth of the middle class. Without understanding how pivotal the post war builds were to Los Angeles, we are destined to forget that the importance of the era to the current growth of our city. CHC-2007-1585-HCM.

Comments for Public Posting: After years of advocacy for the historic Barry Building, It is devastating to learn that approval of the FEIR will make way for its demolition. The International Style resource is clearly significant and has been approved as a local landmark. To allow for the demolition of an HCM would set a detrimental precedent and I ask that Los Angeles City Council reject the FEIR. There are surely preservation alternatives that would balance the needs of the building's owners with the potential for this building to serve the community for many years to come.

Comments for Public Posting: I HAVE LIVED IN LA FOR 50 YEARS. I was a patron of former occupants of the Barry Bldg. The Barry Bldg is one of the few still standing examples of the open 50s/60s, semi-tropical architectural style that drew me to LA in the first place. Please don't destroy it.

Comments for Public Posting: Please do not demolish the Barry Building. This city, my only home is full of buildings that need preservation not demolition. It is not what the city should stand for. Do not please override and demolish a part of Los Angeles history. I see it all around me and I was born and raised here. A true native of this magnificent city. Please do the right thing. How can we keep putting up concrete buildings without history or care.
