Subject: Breeding and killing cats and dogs and tax payers money. Case #23-1008

To: Cityclerk@lacity.org <Cityclerk@lacity.org>

Across the United States in animal shelters, they are overcrowded. Since they are overcrowded these poor animals are being euthanized by the hundreds without sedation witch is a horrible and very,very painful. In the mean time cats and kittens are being breed on purpose with deformed body parts and brains to be experimented on. This is an outrage and crimes against animals. And above all this mine and all taxpayers are paying for it. I had no idea I was paying for seamless experiments that didn't accomplish anything for decades. Lets get it together people its common sense. Take the taxpayers money that you are wasting on deformed breeding on purpose for experiments and give it to the shelters. This has been overlooked for far too long. These animals are desperate for help. I'm giving this email as a voice for these condemned animals with no choice of life for their own. Heartbroken Taxpayer, Lisa
