Comments for Public Posting: Re: Council File 23-1114 I have been attending many of the Eagle Rock Neighborhood Council Meetings since I retired in 2012. I enjoyed learning about how our council works and what was happening with new businesses, properties, and many other things such as the Earthquake, Brace and Bolt program that helped many homeowners to get their homes seismically retrofitted. I tuned into almost all of the neighborhood council meetings during Covid 19. Due to health issues, I am not able to attend the meetings at this time, but I would greatly appreciate if the meetings were available for everyone to participate in. With the technology that is available, this should not be a problem. Regards, Kim Turner – Eagle Rock

Comments for Public Posting: I strongly support Council File 23-1114. Virtual meetings provide a means for younger generations to actively participate in their communities, promoting inclusivity and ensuring that all voices are heard. This resolution is a step in the right direction to bridge generational gaps and embrace the changing dynamics of civic engagement.
