Hi, I was hired by the City of Los Angeles in April 1984 and just recently retired after 36 years of Service. Approving LACERS option for extending Medicare Part B Reimbursement to our small affected group of retired LACERS Members hired prior to April 1, 1986 would be the right thing to do and highly urge you pass it.

Your action would rectify the unfairness of the situation especially for us employees hired just a few years short of April 1986 who did not have a way to contribute to FICA in order to get Part A coverage and who unbeknownst to them were unfairly affected by the change.

Thank you for your consideration.
