Comments for Public Posting: Angelenos of all walks of life are struggling right now -- even more so than usual, bearing in mind that wages have not kept up with inflation for decades. As LA's industries suffer and our communities recover from disaster, it is more important than ever to make sure homes are affordable. Part of that is capping rent increases at 3% to assure the cost of living does not exceed the current tenants' means. As we struggle to find solutions for our countless unhoused neighbors, please ensure that those of us fortunate enough to have a roof over our heads can continue to pay rent and live safely. Thank you.
