Council File No: 23-1134

Comments for Public Posting: The RSO is an incredibly important law that helps keep millions of Angelenos stably housed. But the rent increases allowed right now are too high & unaffordable for Angelenos who are already struggling to make the rent. I urge the City Council to adopt Keep L.A. Housed's for the RSO formula to . Cap increases at 60% CPI or 3% with no minimum increase . Get rid of unfair additional increases for utilities & extra occupants. Thank you!
