Comments for Public Posting: Hi, my name is Jasmine Gonzalez. I am in favor of a new LARSO with a 3% max and no minimum. As a renter and as someone who has young family members that will be renters I am deeply concerned with the affordability of our housing. I have one family member with 4 school-aged children in his home. Their rent increases every year but his wages do not keep up. The RSO is very important and helps many, many families however, the rent increases allowed right now are still too high and unaffordable when it shouldn't be this way. I urge the city council to adopt Keep LA Housed's demands for the RSO formula to cap increases at 60% CPI or 3% max with no minimum increase. Thank you

Comments for Public Posting: The Rent Stabilization Ordinance is an incredibly important law that helps keep millions of Angelenos stably housed. But the rent increases allowed right now are too high and unaffordable for Angelenos who are already struggling to make the rent. I urge the City Council to adopt Keep LA Housed's demands for the RSO formula to Cap increases at 60% CPI or 3% with no minimum increase Get rid of unfair additional increases for utilities and extra occupants. Every extra percentage point is less money for tenants to spend on other necessities like food, medical care, transportation, and childcare. We need the formula updated immediately-- new rent increases go into effect in July and we can't afford any more increases under the current formula. The City Council must vote now to update the RSO with a new formula to keep Angelenos housed.
