Comments for Public Posting: I would like to suggest a speed camera be placed on Monterey, somewhere between Pullman and Via Marisol. Cars go ripping up and down the hill at dangerous speeds very often, and there's never any enforcement of this (or the many cars that drive illegally in the bike lanes here). I know a motorcyclist was killed here this fall, and we've been lucky there haven't been more serious accidents on this stretch of road that many drivers treat like a race track. I would like to feel safer walking and biking on this street.
