**Comments for Public Posting:** The speeding cameras are much needed on Highland near the Hollywood bowl. People drive like crazy and I've almost been hit several times by people running the red on Camrose and highland.

**Comments for Public Posting:** Cars are being driven faster and more unsafely than ever. So many drivers exceed posted limits that it's impossible to enforce. Speed safety systems, including cameras, can collect and provide data to inform city leaders and provide policy guidance. We all want safer streets, even those who regularly and unconsciously drive their automobiles unsafely. Thank you for moving forward with this initiative.
