Council File No: 23-1168

Comments for Public Posting: Too many Angelenos are dying on our streets due to speeding and unsafe driving and the problem is getting worse. Speed cameras are proven to be successful at reducing unsafe speeds and preventing traffic violence. AB645 is an easy way into this solution with plenty of warning for violators. We deserve a city that is safe for all. It's unacceptable for the city to slow roll this. Lives are at stake. Other cities are up and running with AB645. I urge our council to act fast, save lives and get to a Win. Instead of excuses and finger pointing its time our city leadership starting winning for our people. This one is an easy win.
