Comments for Public Posting: Gaivn newsom cannot account for billions of dollars missing for the homeless program, but we are expected to deal with this 1984 level of surveillance and automized policing? Another move by the city to steal from the poor who actually pay taxes, to give to the camera companies who will collect data and monetize it. Doubling, tripling their profits. You people are disgusting, every year you impose more and more taxes on people who pay the most taxes. What is wrong with your morals? You all only worship the dollar and do what the higher ups deem as most profitable. Dont be surprised when masses of people leave this city and your tax revenue drops sharply. Now go on and worship the dollar, your masters, as you are not fit to have any independent thoughts. You do not represent any voices in any cities, you are a disgrace to what local government is supposed to stand for.

Comments for Public Posting: Automated camera enforcement cameras are utterly unnecessary on La Tijera between Manchester and the 405. This is just going to hand out a bunch of unwarranted tickets on this stretch of road that I've seen zero speeding issues on during my 5 year stay in the neighborhood.
