**Comments for Public Posting:** Speed cameras will save lives in Los Angeles. I can't believe it's taken this long for them to be implemented, but at least that time is almost here. Los Angeles needs speed camera enforcement throughout its road system to reduce deaths and injuries from unsafe driving. More speed cameras means more lives saved. It really is that simple.

**Comments for Public Posting:** Thank you for finally adding automated cameras. We need them everywhere! Location request -> In CD 11, please add cameras on Pacific Ave in Venice, parallel to the beach. People speed all day everyday and especially at night! As a Pedestrian Advisory Committee (PAC) member for CD 11 at City Hall, I can vouch for how dangerous the portion of Pacific Ave in North Venice is, including its tiny sidewalks and no multimodal streetscape infrastructure (as the city is still not implementing Measure HLA on this stretch). It's a very bad 'stroad', with significant car and motorbike racing. Please consider adding cameras there.
