

MOTION

I MOVE that the matter of the TRANSPORTATION COMMITTEE REPORT relative to the Speed Safety System Pilot Program authorized by Assembly Bill (AB) 645 (Freidman-Ting), Item 3 on today's Council agenda (C.F. 23-1168), BE AMENDED to adopt the following additional recommendation:

6. INSTRUCT the Police Department (LAPD) with the support of the Department of Transportation (LADOT) to collaborate on an initial, and ongoing, collection, analysis, and maintenance of LAPD Citation System data, Calls for Service data, or comparable LAPD data source related to street racing (described in the state code as "incidences of a motor vehicle speed contest or motor vehicle exhibition of speed") in order to maintain a dataset identifying street segments which would meet the qualifications, on a rolling two year basis, described in California Vehicle Code Section 22435 (b)(1)(B), where a street segment has experienced at least four separate incidences of a motor vehicle speed contest or motor vehicle exhibition of speed within the last two years before the placement of the speed safety system. This dataset shall include the location of the street racing incident, which may be reported as, but not limited to: street intersection, address, or other method of geocoding by LAPD deemed appropriate.
