Council File No: 23-1194

Comments for Public Posting: Good Day council members my name is Lisa Parizo and I have temp residence at The Mayfair Hotel, part of the Inside Safe program. I like to draw your attention to the fact that no one is overseeing the day to day enents here. There is no coorsdation in regards to policies and procedures and as far as people's civil rights are concerned we have none. Clients are being kicked out of their rooms with no notice or permatnemt housing in place, no involvement of case management. They also have not been giving their personal belongings Our card keys are taken away because we refused housekeeping on the room. This wasn't a rule when we entered the agreement. I'm told by the director whom entered my room without knocking with his pass key while my partner was in bed. He said we have no civil rights. I'm not able to inform the mayor but you voted this project in and that's a great change that we needed. But someone has to coordinate policies and rules Thanks for your time my email address in on the for and I'm in rom 512 at The Mayfair
