

# REPORT OF THE CHIEF LEGISLATIVE ANALYST

---

DATE: June 25, 2024

TO: Honorable Members of the City Council

FROM: Sharon M. Tso   
Chief Legislative Analyst

Council File No.: 23-1194  
Assignment No.: 24-06-0453

SUBJECT: Inside Safe Operations

## **SUMMARY**

On February 2, 2024, Motion (Rodriguez – de Leon, C.F. 23-1194), as amended, was adopted instructing the Chief Legislative Analyst (CLA), with the assistance from the City Administrative Officer (CAO) and the Los Angeles Homeless Services Authority (LAHSA), to provide a report to the Council providing details on Inside Safe operations. On April 25, 2024, the CLA released a report which provided the Council with a list of Inside Safe Operations, from December 20, 2022 to February 1, 2024, their start and end dates, locations where the encampment resolution operations took place, number of placements, service providers used, cost of hotel/motel rates, and cost of service provision. The report also provides an overview of the non-City services that have been included as part of the Inside Safe operations. Information for the CLA report was provided by the Mayor's Office, CAO, and LAHSA.

The CLA report includes a table that lists 80 Inside Safe locations and is populated with data provided by LAHSA. On June 24, 2024, LAHSA transmitted a memo with a revised data set. LAHSA reports that the information they transmitted for the CLA report of April 25, 2024 contained duplicate data.

The CLA will review the newly provided data and prepare a supplemental report. Attached is LAHSA's most recent memo received by the CLA's Office with the revised data.

## **RECOMMENDATION**

That the City Council note and file this report as it is for informational purposes only.

  
Pranita Amatya  
Analyst

**Date:** June 24, 2024

**To:** The City of Los Angeles City Council

**From:** Paul Rubenstein, Deputy Chief External Relations Officer

**RE:** Inside Safe Matrix Analysis (Council File 23-1194)

---

### **BACKGROUND**

The following memorandum is in response to a report requested by the Los Angeles City Council under [CF 23-1194](#) that directs the Los Angeles Homeless Services Authority to provide a report to the City Council on Inside Safe detailing the (1) number of operations, (2) locations, (3) number of participants placed in Interim Housing, and (4) hotel each operation used.

The CLA requested on February 14, 2024 the following additional components: (1) date of the operation, (2) operation location, (3) number of individuals in each encampment, (4) number of Interim Housing placements made per operation, (5) number of individuals placed in Permanent Housing per operation, (6), district where the Interim / Permanent Housing is located, (7) nightly cost of motel/hotel used per operation, (8) service provider details for each operation, and (9), service provider cost per motel/hotel.

On May 16, 2024, Councilmember Rodriguez added language to CF 23-1194. This language instructs the CAO, with assistance from the Mayor's Office and CLA, to submit written monthly reports on Inside Safe. This will build off the report submitted by the CLA and matrix prepared by LAHSA in the initial response to CF 23-1194. The additional requests are for (1) details containing the number of operations, (2) location of operations, (3) how locations were chosen, (4) number of participants placed in Interim Housing and motels, (5) exits from the program, (6) costs associated with each operation, (7) cost per nightly room rate per each location, (8) cost per services per individual, (9) all department resources utilized, (10) what community engagement was conducted, (11) programs implemented to prevent repopulation. The first report to the City Council was instructed to include information for all operations since the inception of Inside Safe.

This memorandum provides additional context that can better assist the CLA in answering these additional requests.

## REVISED DATA SET

The first iteration of the Inside Safe Matrix was submitted to the CLA on April 15, 2024 containing Inside Safe data through March 28, 2024. The CLA then uploaded their [report](#) to the Council File. In some cases, exits associated with encampment repopulations were duplicated, meaning that individuals who returned to these encampments were counted twice in the overall data set. LAHSA has since reconciled the dataset to account for duplicate entries, revising the Inside Safe matrix to reflect this. It is important to note that the numbers reported in the bi-weekly reports to the City contained deduplicated numbers.

## MATRIX – PER OPERATION

The first tab, labeled “Matrix - Per Operation,” presents a comprehensive overview of all 48 Inside Safe operations through May 3, 2024 and the 50 corresponding repopulation efforts (column A). Inside Safe also includes clients who were living in other ad hoc encampments throughout the city since January 2023 and clients that were living in the LA Grand on Feb 1, 2023, when it transitioned from a PRK site. It also includes clients in the California Encampment Resolution Fund - LA Grand Program. The data in this matrix only accounts for program exits, meaning it does not include those residing in an encampment who did not move inside during an operation.

The corresponding Council District for these locations is noted (column U). If multiple Inside Safe operations occurred at one site following the original, they were still separately listed with a delineation of “Repop” listed in the “Focus” category (column E). Column E also indicates if a Location is a part of the ad hoc encampment incorporated into the Inside Safe Population base with a delineation of “Scattered Site.” 18 encampments were repopulated following an Inside Safe operation. 12 encampments were repopulated more than twice. This is illustrated in Figure 1.

Figure 1: Encampment Repopulations

| Encampment                  | Number of Repopulations |
|-----------------------------|-------------------------|
| 101 & Cahuenga              | 5                       |
| 81 <sup>st</sup> & Figueroa | 1                       |
| 87 <sup>th</sup> & Western  | 2                       |
| 9580 Foothill Blvd          | 1                       |
| 99 <sup>th</sup> & Flower   | 2                       |
| Balboa & Devonshire         | 1                       |
| Canoga Ave & Vanowen St     | 3                       |
| Crenshaw & Victoria         | 3                       |

|                                                                                                                     |   |
|---------------------------------------------------------------------------------------------------------------------|---|
| Figueroa Corridor (Repop for Vernon & Grand ("Grand Corridor"), Grand & 52nd, and Grand/Broadway/45 <sup>th</sup> ) | 4 |
| Hollywood & El Centro                                                                                               | 1 |
| Little Mayfair                                                                                                      | 1 |
| Lomita & McCoy                                                                                                      | 2 |
| Poinsettia & Romaine St                                                                                             | 2 |
| Rancho & Jim Gilliam                                                                                                | 5 |
| Ritchie Valens / Paxton Park / 118                                                                                  | 1 |
| Vernon & Grand                                                                                                      | 1 |
| Victory & Vineland                                                                                                  | 2 |
| Willow Tree                                                                                                         | 1 |
| Wyandotte                                                                                                           | 2 |

The operations are listed in chronological order, starting with the earliest start (column B) and end dates (column C). Outreach providers (column E) and Interim Housing providers (column F) are listed.

Before most Inside Safe operations, LAHSA and the Mayor's Field Intervention Team (FIT) work with providers to estimate the number of people experiencing homelessness at an encampment site. A by-name list of all individuals presumed to be at a site is created and this creates the estimated number of people experiencing homelessness at the site. This is delineated in "Projected Number of People Experiencing Homelessness Before Inside Safe Operation" (column J). Please note that for repopulation efforts, we do not conduct estimates. On the day of an encampment resolution, the number of individuals who were present during the resolution and who moved into an Inside Safe Program motel, other interim housing site, or who were reunified, are tracked in a final by name list and through enrollments in the corresponding interim housing programs in HMIS. This group makes up the total served in "Total Number of People Moved Inside" (Column S).

The following outcomes (column K-S) show the status of every Inside Safe Program participant on the day the report was generated, in this case May 3. The status is determined by looking at all programmatic and client information entered HMIS including active enrollments and most recent exits. These numbers may shift from previous dashboard iterations due to the revolving nature of these outcomes. For example, if clients exit Interim Housing and move into Permanent Housing between dashboard updates, then the total number in C2 of the "Summary Totals" tab will go down, whereas that in K2 will go up. However, if some clients in Interim Housing return to homelessness, then the totals in H2 would rise.

To start, Total # People Moved Inside (column K) represents the number of people experiencing homelessness who were moved from the street to interim housing. The majority of individuals moved into motels, while some clients went to other interim housing sites.. For operations in which data is available, the motel sites where encampment residents were transitioned to are reflected (column W). The corresponding Council District where these motels are located is provided as well (column V).

Some individuals experiencing homelessness passed away (column N) or were incarcerated (column M) following the completion of an Inside Safe operation. Those transferred to medical or psychiatric facility (column O) or substance use facility (column P) are noted.

Many individuals returned to homelessness. This also explains why there is duplicative data in some instances, as people appear in multiple encampment sites. These participants were enrolled in the program a second time. Program participants who returned to homelessness (column Q) indicates clients who have no open enrollments in any programs in HMIS and whose most recent exit information was unknown or to a homeless situation. Participants noted as Returned to Homelessness-Working with a Provider (column R) indicates that the client has an open enrollment in other programs (e.g., outreach) in HMIS, but they are not currently housed.

Finally, Permanent Housing placements, where individuals successfully obtain stable, long-term housing, are outlined (column S). The overall percentage of Inside Safe participants, currently in Permanent Housing is shown (column T). This number was calculated by dividing the total number of Permanent Housing (column R) by the total number of people currently in interim and permanent housing. This methodology is consistent with the bi-weekly dashboards..

## SERVICES PROVIDED

The service provider cost (column I) is uniform across all sites at \$110 per person, per day. This figure accounts for all services provided, excluding motel costs. The specific services provided under LAHSA’s Scope of Required Services (SRS) for Inside Safe is listed in the separate tab labeled “Services Provided.” Motel owners and operators bill the City of Los Angeles directly. According to the Chief Legislative Analyst’s report dated April 25, 2024, the motel nightly cost is detailed in Figure 2. This figure offers a comparison to congregate shelter costs from other programs, based on data provided by LAHSA’s Interim Housing Department. Typically, the rate for Interim Housing is lower than \$110, as this represents the high end.

Figure 2: Nightly Per Person Cost Comparison

| Cost Category    | Motel (Inside Safe) | Interim Housing |
|------------------|---------------------|-----------------|
| Nightly Bed Rate | \$115 - \$125       | -               |

|                       |               |              |
|-----------------------|---------------|--------------|
| Service Provider Cost | \$110         | \$60 - \$110 |
| Total Nightly Cost    | \$225 - \$235 | \$60 - \$110 |

A comprehensive overview of the Scope of Required Services for the Inside Safe Interim Housing program can be found [here](#). The program's goal is to identify housing for each participant within 90 days of enrollment, with a maximum six-month period in the program. Extensions of program participation beyond six months may be accommodated via a waiver if an extension is deemed necessary to assist the participant in quickly obtaining Permanent Housing.

### **LENGTH OF STAY**

The overall average length of stay for Inside Safe participants in interim housing is 238 days and the median length of stay is 205. This was calculated by determining the difference between the service start and end dates for each client and then averaging this difference across all clients.

### **SUMMARY TOTALS**

The tab labeled “Summary Totals” provides totals for all categories found in the “Matrix - Per Operation” tab. Additionally, it breaks down this information further at the Council District level. Here, one can see the spread of Inside Safe operations between Council Districts, as well as how outcomes varied among these different locations (columns C-K). Please note that clients in some scattered sites are not included in the CD breakdown. This is because the CD of origin of these clients is not known as they came from various encampments and programs around the city.

### **DEDUPLICATED SOURCE DATA**

This tab contains data from the Tableau Dashboard used to generate the biweekly Inside Safe Report. The totals in row 99 are a deduplicated account of individuals in each status category. HMIS data directly feeds into the Tableau dashboard that analyzes the data to generate a current status using a series of formulas that look at all active enrollments and previous exit data.

### **CONCLUSION**

Of those who came are still housed and engaging in the Inside Safe program, 24% are currently permanently housed, with 55% currently living in Interim. LAHSA’s revised matrix includes this new percentage and demonstrates how 17% of overall program participants (everyone who came inside during an Inside Safe operation) have been placed into Permanent Housing.
