**Comments for Public Posting:** The Neighborhood Council System is at inflection point and it needs a strong commissioner willing to stand up to DONE and fight for Neighborhood Council members. Unfortunately, Mr. Nadel is not that choice. As a careful observer, I have witnessed his sycophantic behavior and his unwillingness to listen. Even worse he seems to take disagreement as a point of personal challenge and his responses reflect an emotional volatility that would be aggravated in a commissioner position. While he may be able to do good work at the Neighborhood Council level, I do not believe he possesses the traits of character needed at this critical moment.
