Council File No: 23-1210

Comments for Public Posting: I strongly support and urge the Council's support of Item #14 (23-1210). This measure to transfer maintaining bike paths and multi-use paths to the city Department of Public Works will simplify maintenance of paths by placing all responsibilities within a single department, saving the city time and money. The Department of Public Works has the ability to maintain these often under-funded, under-maintained paths, and this measure will help the City to maintain a key public asset in advance of upcoming events of global importance like the Olympics. Please support Item #14 (23-1210), and thank you for your attention to this matter.
